Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. When your workers are in nonstop contact with liquid splashes and particles, KleenGuard™ A40 Liquid and Particle Protection Coveralls are a great addition to offer your team comfortable protective clothing. Features to provide more protection include the seamless front (for primary exposure area), 1 inch zipper flap and a hood. They feature REFLEX design, which offers excellent fit and comfort (with elastic in the back) and freedom of movement. Made of breathable, microporous film to keep out debris, non-hazardous liquid chemicals and dry particulates, the KleenGuard™ A40 material gives your employees a better liquid barrier and a better particulate barrier than the leading competitor. These coveralls with Elastic wrist & Ankles and Hood pass NFPA 99 for antistatic materials, and pass ASTM F1670 testing for penetration of blood and bodily fluids. Popular industries using this product include liquid handling, aviation, pharmaceutical manufacturing, general manufacturing and so much more. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

- 25 KleenGuard™ Coveralls/Case; Size 2XL; White; Zipper front, Elastic Wrists & Ankles, Hood
- KleenGuard™ A40 Liquid and Particle Protection Coveralls are made of microporous film laminate with a hood, zipper front and elastic wrists and ankles
- KleenGuard™ A40 has 37% stronger fabric vs leading competitor
- KleenGuard™ A40 is 2.5X more resistant to tear than leading competitor
- Up to 90% less lint than leading competitor
