supporting healthy hands

Anti-Bacterial Foaming Hand Soap is useful in all office and public bathrooms. It effectively removes soils, provides antibacterial activity, and is mild on the skin.

FUZION AB FOAMING HAND SOAP

PROD. #3388

General Purpose Hand Cleaner

FEATURES/BENEFITS:

Mild Hand Cleaner	Anti-Bacterial Foaming Hand Soap maintains pH at an optimum level to clean hands without harsh alkalis, abrasives or solvents
Antibacterial	This hand cleaner is formulated with Benzalkonium Chloride (Quat) which reduces bacteria on hands without leaving any objectionable residual odor
Rich Lather	Dispenses as a thick, luxurious foam which can be worked into the hands easily and rinsed away quickly
Moisturizes	Contains moisturizers which keep hands from feeling dry and cracked, even with repeated use
Convenient Dispenser	Packaged to be dispensed through our thoughtfully designed Fuzion Dispenser

APPLICATIONS:

Anti-Bacterial Foaming Hand Soap is recommended for use in offices, schools, restaurants, hotels, public restrooms, or anywhere that requires a pleasantly fragranced, moisturizing hand cleaner such as; amusement & recreation facilities, beauty shops, schools & educational facilities, hotels & motels, eating establishments, sports and recreation clubs, child care & day care services
