# 4. FIRST AID MEASURES

#### Description of first aid measures

General advice	If symptoms persist, call a physician.	
Eye contact	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.	
Skin contact	Immediate medical attention is not required. Wash off immediately with soap and plenty of	

	water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.		
Inhalation	Immediate medical attention is not required. If symptoms persist, call a physician. Move to fresh air in case of accidental inhalation of vapors or decomposition products.		
Ingestion	IF SWALLOWED:. Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. Clean mouth with water and drink afterwards plenty of water. Never give anything to mouth to an unconscious person. Call a physician. Do NOT induce vomiting.		
Self-protection of the first aider	Use personal protective equipment as required.		
Most important symptoms and effe	ects, both acute and delayed		
Symptoms	See section 2 for more information.		
Indication of any immediate medic	al attention and special treatment needed		
Note to physicians	Treat symptomatically.

	6. ACCIDENTAL RELEASE MEASURES		
Personal precautions, protective e	equipment and emergency procedures		
Personal precautions	Avoid contact with eyes and skin. Wash thoroughly after handling. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges.		
Environmental precautions			
Environmental precautions	See section 12 for additional ecological information. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.		

Methods and material for containment and cleaning up

Methods for containmentPrevent further leakage or spillage if safe to do so.Methods for cleaning upUse personal protective equipment as required. Dam up. Cover liquid spill with sand, earth<br/>or other non-combustible absorbent material. Take up mechanically, placing in appropriate<br/>containers for disposal. Clean contaminated surface thoroughly. Soak up with inert<br/>absorbent material. Pick up and transfer to properly labeled containers. Take precautionary<br/>measures against static discharges.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

## 7. HANDLING AND STORAGE

Precautions for safe handling	
Advice on safe handling	Use with local exhaust ventilation. All equipment used when handling the product must be grounded. Keep away from heat/sparks/open flames/hot surfaces No smoking. Use personal protective equipment as required. Do not breathe dust/fume/gas/mist/vapors/spray. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors).
Conditions for safe storage, incl	uding any incompatibilities
Storage Conditions	Keep containers tightly closed in a cool, well-ventilated place. Keep away from heat. Keep in properly labeled containers.
