M'tucci's Shrub Cocktails

Shrubs are a sharp, tangy infusion of fruit, vinegar, and sugar. The American version of the shrub dates back to 17th century England where vinegar was used as an alternative to citrus juices to preserve berries and other fruits. At M'tucci's, we have revived these traditional methods and experimented with many different combinations of fresh fruit, local herbs, and various vinegars. Be sure to try them all!

Amaro List

Amaro (Italian for "bitter") is an herbal liqueur that is commonly consumed as an after-dinner digestif. It is traditionally produced throughout Europe and usually has a bittersweet flavor. An amaro is traditionally crafted by combining macerated herbs, flowers, or roots with neutral spirits and wine then mixing the resulting filtrate with sugar syrup. Finally, this mixture is aged in casks or bottles. Recipes for amaro can be traced back to the 19th century, with roots in monasteries and pharmacies. Amaro is typically enjoyed neat, sometimes with a citrus wedge.
