ITEM	PART #	QTY	DESCRIPTION

## SYSTEM WARNING DECAL INSTALLATION

This kit contains a warning decal (see Figure A) that is to be installed immediately adjacent to the helm pump. This warning decal is to be installed to instruct users on all points to be checked prior to each use. Checking these simple points prior to use may bring attention to possible faults within the system or steering gear which must be corrected prior to use.

### WARNING

Failure to install this decal may lead to loss of steering control, leading to possible ejection from vessel causing property damage, personal injury and/or death.

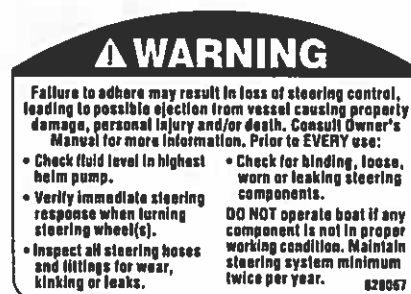

Figure A. Decal PID# 828067.
