

Control Access. Track Every Action. Grow Without Limits

AccountGST.com

# Overview

The User License System in AccountGST empowers businesses with controlled, secure, and scalable access to their ERP/accounting software. It allows multiple users to work simultaneously while maintaining strict control over access, actions, and login locations.

# Business Benefits

## **Complete User Control**

Define who can access the software and restrict usage based on roles, systems, or locations.

## **Full Activity Tracking**

Monitor every user action—create, edit, delete—with detailed logs to prevent misuse and errors.

## **Multi-User Collaboration**

Enable your team to work simultaneously without conflicts, improving productivity.

## **Location-Based Security**

Restrict access to office premises while allowing admin flexibility to work from anywhere.

## **Dual Access (PC + Mobile)**

Users can operate from desktop and mobile apps together (with mobile interface add-on).

## **Scalable Growth**

Easily add more users as your business expands.

## **Cloud Resource Optimization**

Structured licensing ensures optimal use of server resources with predictable scaling costs.

## Terms & Conditions

- Prices mentioned above are exclusive of all taxes. Applicable taxes will be charged extra.
- Plugin pricing may differ based on the software variant, as higher variants consume more cloud bandwidth and user I/O resources.
- Renewal charges for plugins, wherever applicable, are subject to change in future depending on cloud infrastructure and maintenance cost.
- All disputes shall be subject to Indore jurisdiction only.
- In case the customer is using more than one software link, plugin purchase will be required separately for each link.
- Plugins will remain active for all companies created under the same software link.

# Configuration & Integration

Go to Dashboard → Masters → Login Users

The screenshot shows the ERP dashboard for 'DC, New Demo Company' (F.Y.:2028-27) with 'Variant: Enterprise ERP'. The user is 'Admin' and the system is in 'Masters' mode. A dropdown menu is open under 'Masters', with 'Login Users' highlighted. The dashboard includes several key metrics and reports:

- Customer Metrics:** 1 Complaint, 1 Feedback, 9 Customer Lost.
- Business H Metrics:** 0 Quotation, 6 Sales Order, 37 Delivery Orders, 0 Dispatch Skipped.
- Financials:** Outstanding Flow (Stock, Debtors, Creditors) and Liquidity (Bank, Cash, PDC (Rec.), PDC (Pay.)).

The left sidebar contains sections for Customer, Reports, and Stock, with various transaction and report buttons.

# Configuration & Integration

Create users using this form and assign or restrict their access rights.

Menu DC, New Demo Company (F.Y.:2026-27) Support Welcome: Admin

### Create Login User

**User License Summary**  
Allotted : 1000  
Activated : 8  
Inactive : 992

Login ID \*

User Mobile \*  eg. 9827598275, enter only 10 digit Mobile No.

User Email \*  Password

Default Password "password" (User can change default 'password' after the login)

IP Based Login  
This security will work only after adding the Static IP, to add Static IP [click here](#) OR Goto Dashboard → Tool → Static IP.

Email Permission  
 WhatsApp Permission  
 Allow Attachment

Define User Rights (On IRN & E-Way Bill)

IRN	<input type="checkbox"/> Generate	<input type="checkbox"/> Allow To Delete IRN Generated Voucher						
E-Way Bill	<input type="checkbox"/> Generate	<input type="checkbox"/> Allow To Delete E-Way Bill Generated Voucher						

## Q & A

**Question 1: What is a User License in AccountGST?**

A User License allows one individual to access the software with their own login credentials and permissions.

**Question 2: Can multiple users work at the same time?**

Yes, multiple licensed users can work simultaneously without data conflict.

**Question 3: Can I track what each user is doing?**

Absolutely. Every action—creation, modification, deletion—is logged for full transparency.

**Question 4: Can I restrict users from logging in outside the office?**

Yes, you can restrict access to specific business locations while allowing admin access from anywhere.

**Question 5: Can a user access the system on mobile?**

Yes, with an additional Mobile Interface subscription, users can access both PC and mobile simultaneously.

# THANKS!
