## Molly Sofa Bed Assembly & Operating Instructions

### ASSEMBLY INSTRUCTIONS

#### IMPORTANT

PLEASE READ BEFORE ASSEMBLING THE SOFA BED

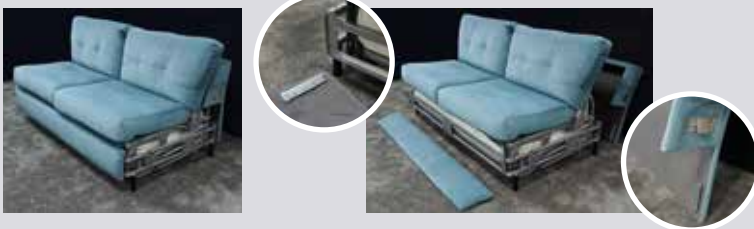

The sofa bed will arrive in 2 boxes. 1 containing the body, the other containing the arm panels and legs.

1

Once in the location, attach the wooden legs to the arm panels.

2

To enable the arm panels to be fitted, you must remove the front and back panels first.

Pull both pieces vertically so that the metal clips can slide out.

3

Then attach the two arm panels by lowering in vertically and slotting into the metal clips.

4

You are then able to reattach the front and back panels by lowering vertically and slotting into the metal clips. When the back is lowered into position the clips that connect the rear of the arm and the back are engaged.

You must ensure the base and back panel clips are fully aligned so no damage is caused. Please also make sure all pieces are firmly together before use.

### OPERATING INSTRUCTIONS

To open the Molly Sofa Bed, **stand at the front of the sofa** and pull on the fabric tab behind the cushions until the mattress has opened out completely and all legs are firmly on the floor.

1

2

3

Stage 3 & 4 - continue to open the sofa bed by pulling down on the metal bar at the end of the mattress
