Diverter **include volume control** and **do not allow to share functions.**

OPERATION EXAMPLE:

### T773BU + D373AU

- a) **rotating diverter with volume control:** from the OFF position, the first function is activated by rotating the knob clockwise, volume increases progressively. The second and third are activated in sequence turning the handle counterclockwise.
- b) **temperature control** with safety override button at 100° F.

The outdoor shower column **T560BU+T560AU** is made from marine grade AISI 316 brushed stainless steel, which ensures durability against weather elements.
