Venice handles in Murano glass and Crystal

These handles have a metal base available in different finishing.

Venezia handles in Murano glass are made using the ancient and traditional techniques of Venetian glass masters. Any unevenness in the colour distribution within the handle is typical of artistic glasswork. They are part of the beauty and authenticity of a high quality product handmade in Italy and contribute to making each piece unique and inimitable.

Small imperfections such as air bubbles or slight variations in the surface of the crystal may be present in **Venezia Crystal handles**. These slight marks are an intrinsic characteristic of the craftsmanship of crystal. They guarantee manual workmanship and contribute to making each piece unique and inimitable.

For spare parts of purchases made before Sept. 2016 a specific fixing kit (cod. 90 00 8944) must be ordered together with any handle new type.

* For spare parts, accessories, miscellaneous items and extensions please refer to specific pricelist sections
