Handles in Murano glass - Bicolor and Filigree

These handles are only compatible with the fixtures included in this section, as indicated in the handle descriptions.

These handles are not compatible with the fixtures in the Venezia section but conversion kits are available to retrofit certain Venezia valves and make them compatible with the Venezia by Venini handles.

Venezia by Venini handles are made of a metal base, available in different finishes, and an artistic glass top, produced in the workshops of the Venini family on the island of Murano.

Each handle is a unique, handmade piece and may present slight variations in color or minor imperfections. These feature are a part of the artisanal glassmaking process, and contribute to making every piece unique.
