A NEW WARMER, SOFTER, RICHER SIDE

Clever

THE HEAT IS ON

Bathroom showrooms are so often cold, dull and clinical – but not so for C.P. Hart's Waterloo base, which showcases some of the brand's ranges through a colourful room set from Matthew Williamson. It has all the warmth typical of the designer's work, combining textured pink walls with multicoloured tiles in earthy hues, fluted and stone finishes, coloured glass accents and vintage Murano lights. It's a real blueprint for a bathroom that feels warm, cossetting and a pleasure to spend time in – we'd recommend popping in to experience it in person if you can.
