MANUAL TÉCNICO

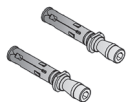

P5 7606 / P5 7652

Young ipág. 831

## KIT DE FIJACIÓN

Los accesorios YOUNG se suministran de serie con los siguientes kits de fijación (incluidos en cada artículo):

### PARA PAREDES DE OBRA CONSOLIDADA

### PARA PAREDES DE PLADUR

Se aconseja siempre la colocación de **pladur reforzado**

### PARA PAREDES DE OBRA NO CONSOLIDADA (Ej. Ladrillo agujereado)

Sugerimos el uso de un taco químico (no suministrado)

Por su diseño minimalista los accesorios YOUNG no tienen previsto el uso de embellecedores a pared

Cuando se necesite unstarlos en paredes de pladur no alicatado, (pintado o en resina) sugerimos el uso del kit específico, compuesto de una brida con agujeros de fijación y un embellecedor estético de cobertura, para aumentar la estabilidad y evitar la rotación.
