Dear Customer,

Tint World® is the largest and fastest growing auto styling and window tinting franchise in the automotive styling industry. Since opening in 1982, Tint World® has installed window film on millions of automobiles, homes, office buildings and watercrafts at our locations all across North America, and has expanded in multiple International Countries.

Tint World® was founded on the premise that if we treat our customers like family and friends, they will come back over and over again.

As our history shows, we truly believe in long-term relationships. In fact, we've been fortunate enough to have serviced many of our clients each time they get a new vehicle and as they have moved into their second or third homes or business locations. Our philosophy is simple: provide the best product available on the market, back it up with outstanding service and offer it at a fair and reasonable price. We also believe in operational excellence and are consistently striving to offer nothing but the best.

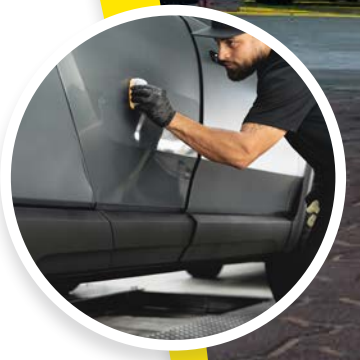

Tint World® Automotive Styling Centers™ guarantees your satisfaction. You can always count on us for quality products, professional service installations and a friendly, knowledgeable staff. We invite you to visit Tint World® and see how we exceed your expectations and ensure your satisfaction.

COMPUTER CUT SYSTEM

Tint World® Computer Cut System digitally generates and cuts window tint patterns to fit your vehicle's exact specifications.

Installation is performed by expert technicians, ensuring a perfect fit every time.

FACTORY vs AFTERMARKET TINT

Factory tint only offers basic privacy.

Aftermarket tint offers privacy plus protection for your skin and eyes by blocking out more than 99% of the sun's UV rays and provides up to 85% heat reduction.

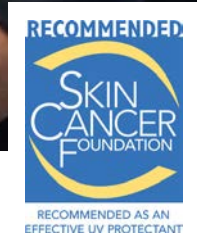

WINDSHIELD VISIBILITY FILM

Automobile Windshields aerodynamically slant back, allowing direct sunlight into the vehicle. Tint World® visibility windshield film protects your skin, eyes, and provides up to 85% heat reduction.

TINT SHADE SPECTRUM

We carry a variety of tint shades to meet your style! Window tinting shades are measured by VLT (visible light transmission), which is the percentage of light that passes through your windows. Whether you're looking for something light, or dark, Tint World® has a shade for you!

SOLAR CONTROL WINDOW FILM

Solar Control Window Film reduces energy costs year-round. In the summer, solar films can reject up to 85% of the sun's total solar energy. In the winter, solar film helps retain heat by insulating glass.

DECORATIVE WINDOW FILM

Decorative Window Film is a cost-effective way to provide beautiful maintenance-free, fingerprint-resistant, decorative uniform windows and glass with a high-class appearance, and tranquil atmosphere.

SAFETY & SECURITY WINDOW FILM

Safety and Security Window Films make glass stronger and provide exceptional impact-resistance from explosions, accidents, vandalism, and also greatly reduces potential risk of airborne glass shards.

STORM PROTECTION WINDOW FILM

Storm Protection Window Film improves the strength of glass in your home, and provides exceptional impact resistance that can prevent entry of rain and debris by holding shattered glass in one piece.

ANTI-GRAFFITI & PROTECTION FILM

Anti-Graffiti Protection Film protects glass store-fronts and building surfaces against graffiti, scratches, acid-etching gouges, and tagging from vandalism damage that can cost millions of dollars each year.
