PEOPLE • PLANET • COFFEE

We search out the finest Arabica beans, grown and harvested under the best circumstances, with a rich and complex flavour. All our beans come from sustainable certified coffee farms with good working conditions and shown consideration for the environment. Arvid Nordquist coffee is also 100% CO₂ compensated by tree planting projects in deforested areas in coffee-growing countries.

Coffee: Fairtrade certified and sourced from Fairtrade producers. Total 100%. Visit www.info.fairtrade.net

EU organic- and KRAV labelled food is produced without chemical insecticides and herbicides and artificial fertilizers.

By choosing organic products a contribution is made to a better environment and a landscape with biological diversity.

**COFFEE GROWN
BY WOMEN**

In countries where coffee is grown, women are often left in the rural areas with limited possibilities. The coffee in AMIGAS comes from farms run by women.* By getting legal rights to inherited land, women are able to receive credits through which they can improve their business. As a consequence the coffee quality as well as the livelihood improves. To increase women's possibilities is in line with the UN sustainability goals for 2030.

* At least 50% depending on supply.
