

Construction hoist BUILD

Why Construction hoist BUILD?

With the high-quality electric construction hoist, the heaviest construction materials can be safely and easily transported upwards every day. The suspension device with locking protection facilitates installation, ensures safe working and enables mobile use of the construction cable winch.

- **Suspension device:** Simply mount to a round tube, without any additional tools
- **Rope length:** Extra-long rope with **30 m** length for particularly high lifting heights

- **Practical operation:** Control functions intuitively via the remote control; retrofit with a radio remote control for even more flexibility
- Dust and splash-proof according to **IP54**
- **Safety:** Commissioning is only possible after correct installation! The **emergency stop switch** is integrated in the remote control

Technical data

BUILD

OPTIONS Choose between

1 | 2

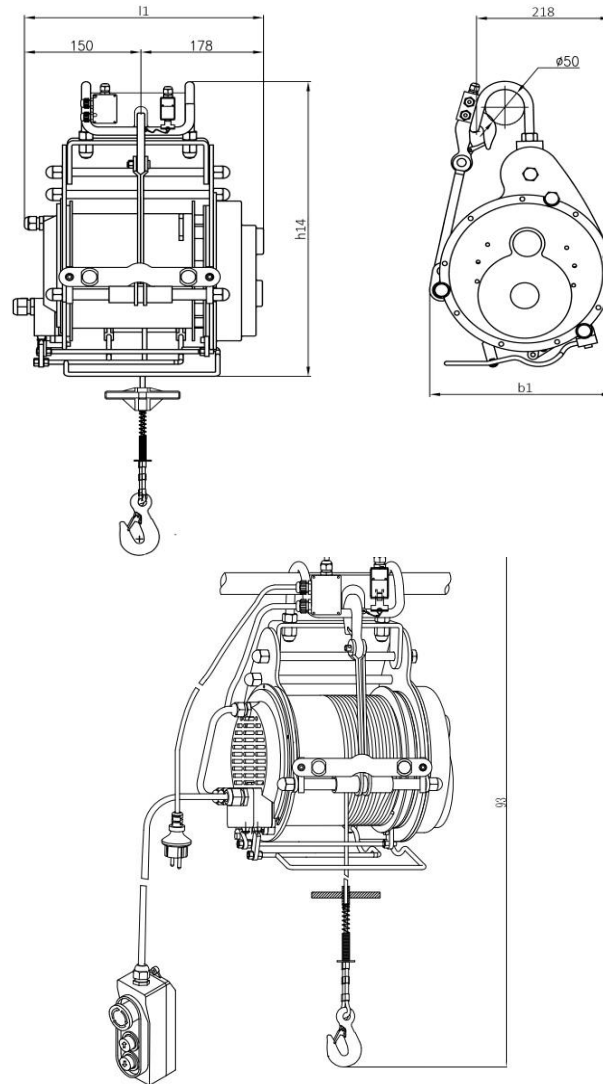

Single hook load capacity	200, 400 kg
Double hook load capacity	400, 800 kg
Motor output	1000, 1300 W
Nominal current	4.3, 5.8 A

DIMENSIONS

Cable length remote control	1.5 m
Single hook lifting height	30 m
Power cable length	0.65 m
Rope diameter	4, 5 mm
Length of rope	30 m
Smallest distance (mounting to end of hook)	930 mm

GENERAL INFORMATION

Standard	EN 14492-2
Colour	Ultramarine blue
Material	Steel
Design	Construction hoist
Weight	33, 35 kg

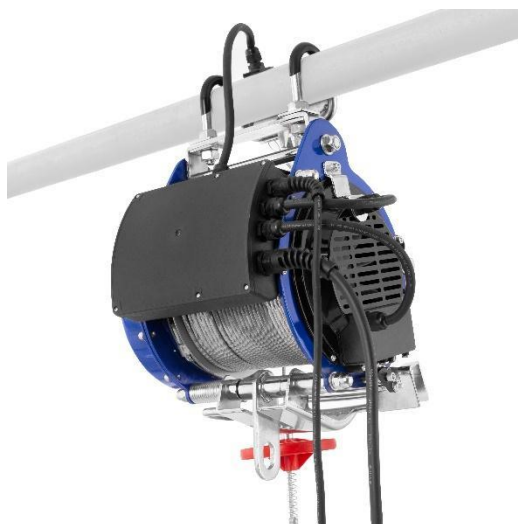

TECHNICAL SPECIFICATIONS

Protection class	IP 54
Thermal overload protection	Yes
Noise level	71 db
Single hook lifting speed	4 m/min
Double hook lifting speed	8 m/min
Appliance voltage	230 V
Insulation class	B
Duty cycle	S3-20%-10,
Thread size	M10
Rope tensile strength	1870 N/mm ²
Engine group	M1

We are improving our products continuously. It is therefore possible that technical data changes without prior notice. Product image and drawings can deviate depending on design and year of manufacture, .
