

High lift truck

LIFT-L

Why the LIFT-L?

The Pallit LIFT-L is ideal for stacking and storage work up to 2000 mm high. Its low maximum height predestines it for use in low spaces and for passing through most doorways.

- **Easy picking up and moving** of Euro pallets by operating the foot pedal or by pumping movements of the tiller
- **Free lift function** allows pallets to be lifted without changing the overall height of the high lift truck
- **Stepless lowering** via the handle
- **Permanently lubricated ball bearings** for low maintenance
- **Tandem tyres on the castors** underneath the forks provide stability

and allow the truck to negotiate speed bumps without difficulty

- With **ergonomic handle** for comfortable operation
