

High lift truck LIFT-S

Why the LIFT-S?

The Pallit LIFT-S is ideal for temporary stacking and storage work up to 1200 mm high. The low maximum height predestines it for use in low spaces and passing through most doors. In short: a perfect entry-level model in the field of high lift trucks for newcomers to the field.

- **Two options** to choose from: with 1000 kg or 2000 kg capacity
- **Easy picking up and moving** of Euro pallets by operating the foot pedal or by pumping movements of the drawbar
- **Free lift function** enables pallets to be lifted without changing the overall height of the high lift truck
- **Stepless lowering** via the handle
- **Permanently lubricated ball bearings** for low maintenance
- **Tandem tyres on the castors** underneath the forks provide stability and allow the truck to negotiate speed bumps without difficulty
- With **ergonomic handle** for comfortable operation

Technical data

High lift truck LIFT-S

OPTIONS Choose between

1 | 2

Load capacity	1000 1500 kg
