

Electrical Scissor lift truck ZAC-E

The all-electric ZAC-E scissor lift truck is suitable for the electric lifting and moving of loads up to 1,500 kg at a lifting height of up to 450 mm, after which the load capacity is reduced to 1,000 kg. The gradual lifting is carried out electrically, as is the drive of the device. At the same time, it functions as a height-adjustable work platform that enables ergonomic working.

- The scissor lift truck **can be moved** up to **a lifting height of 450 mm**
- Durable and shock-absorbing **polyurethane (PU)** tyres
- Upright mode enables manoeuvring with the **drawbar upright**, ideal for tight spaces
