

# Scissors lift ZAC

### Why the ZAC?

The ZAC scissor lift truck with quick-lift function transports palletised goods weighing up to 1000 kg to a lifting height of 800 mm. The Quicklift function speeds up the lifting of the load so that processes can be carried out more efficiently.

- Perfect lift height of 800 mm for ergonomic order picking
- Fork length of 1170 mm for one-way and Euro pallets (EPAL 1) as well as mesh pallets
- o Maximum load capacity of 1000 kg
- Safe stability due to lateral support feet

- Due to the high lifting height, it is particularly suitable for order-picking work in warehouses and as a practical lifting platform or workbench
- The corrosion-resistant polyurethane (PU) tyres are durable and abrasionresistant
- Mobile up to a lifting height of 350 mm
- Rounded fork tips for easy and safe entry into the pallet
