

Heavy-duty pallet truck

HEAVY

Why the HEAVY?

The HEAVY with reinforced components is ideal for transporting pallets with loads of up to 5000 kg. It is, of course, suitable for use with standardised Euro pallets. The sturdy steel construction enables continuous use in warehouses, haulage companies or in trade.

- Reliable load capacity of **up to 5000 kg**
- It should be noted that the load must **always be evenly** distributed on the forks
- **Tyres:** Tandem castors made from hard-wearing and durable nylon
- The **tandem tyres** underneath the tines ensure **smooth and stable running** during transport
- **Ergonomic handle**
- **Fork length of 1150 mm** designed for transporting any type of pallet

- Durable and low-maintenance thanks to **permanently lubricated ball bearings**

Technical data

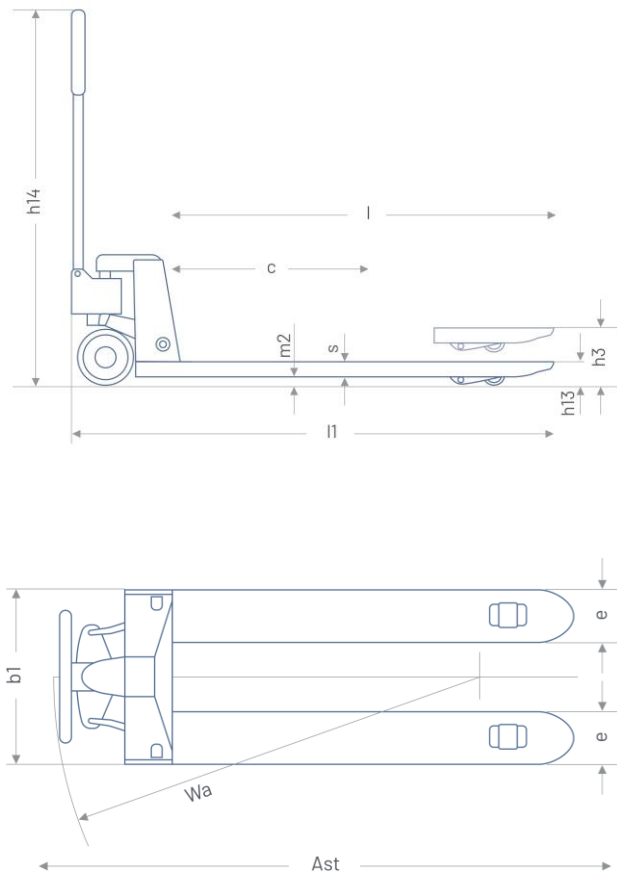

Heavy-duty pallet truck HEAVY

DIMENSIONS

Fork length	1150 mm	l
Length	1544 mm	l1
Width	550 mm	b1
Drawbar height	1174 mm	h14
Fork width outside	550 mm	b5
Fork height	57 mm	s
Ground clearance	28 mm	m2
Distance between forks	230 mm	
Height from floor	85 mm	h13
Fork width single	160 mm	e
Load centre of gravity	600 mm	c
Turning radius	1300 mm	Wa
Min. aisle width (EPAL1 Euro pallets)	1744 mm	Ast

GENERAL

Load capacity	5000 kg
Material	Steel
Weight	110 kg

STROKE

Lifting height	205 mm h3
Type of stroke	Manual
Effective Stroke	120 mm

TREATMENT

Tyre material	Nylon (PU)
Castors	Tandem
Wide castors	80 mm
Diameter of rollers	80 mm
Wide swivel castors	50 mm
Castor diameter	200 mm
Infeed rollers	Yes

We are continuously improving our products. For this reason, technical data may change without prior notice. Product images and sketches may vary. Wear parts, rechargeable batteries and batteries are excluded from our manufacturer's "Plus Warranty" - details can be found in our warranty declaration. The pallet truck complies with EU safety regulations.
