

Manual pallet truck with starting aid START

Why the START?

Our pallet truck with start-up aid is designed for efficient, daily use. It takes the first step almost by itself, as it requires considerably less effort than a standard pallet truck. The START is also equipped with a quick lift function.

- Reliably loadable with **up to 2500 kg**
- It should be noted that the load must **always be evenly** distributed on the forks
- **Small turning radius** makes it ideal for use in narrow aisles and confined sales areas
- **Ergonomic, rubberised handle** for optimum working conditions even in cold temperatures
- **Robust, fully hydraulic lifting and lowering device**: For smooth lifting and lowering of pallets
- **Starting aid**: Supports starting in the direction of the drawbar and improves manoeuvring of the loaded pallet truck

- Fork length of **1150 mm** designed for the transport of any type of pallet
