

## Partially stainless steel lift table trolley INOXX-M

### Why the INOXX-M?

The INOXX-M lift table trolley, made of stainless steel and galvanised steel, is perfect for lifting and transporting loads in environments with strict hygiene regulations. Its stainless steel material makes it ideal for the food, pharmaceutical and chemical industries.

- The **large platform** ensures a practical storage area
- **Lifting height of 890 mm** thanks to a stable scissor brace
- **Platform, chassis and push handle made of stainless steel**, secondary parts galvanised
- Maximum load capacity of up to **250 or 450kg depending on the variant**
- Easy **lifting via foot pedal**
- Stepless lowering **by hand lever**

- Safe parking of the lift table trolley **thanks to the parking brake**
- Enables comfortable, **ergonomic working** thanks to the flexibly adjustable table height

## Technical data

### Partially stainless steel lift table trolley INOXX-M

#### DIMENSIONS

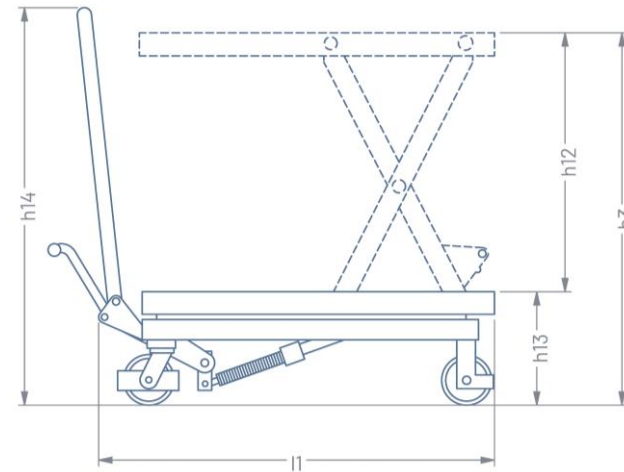

Option	①   ②	
Platform size	815x500mm	lxb5
Width	500mm	b1
Length	825mm	l1
Drawbar height	980mm	h14
Min. platform height	290mm	h13

#### GENERAL

Load capacity	250   450kg
Material	Partially stainless steel
Weight	66   78kg
Drive type	manually

#### STROKE

Type of stroke	Manual hydraulic	
Lifting height	890mm	h3
Effective Stroke	600mm	h12

#### TYRES

Tyre material	Polyurethane (PU)
Diameter of rollers	125mm
Wide castors	35mm
Castor diameter	125mm
Wide swivel castors	35mm

We are continuously improving our products. For this reason, technical data may change without prior notice. Details of our manufacturer's guarantee "Basic guarantee" can be found in our guarantee declaration. The lift table trolley complies with EU safety regulations.
