

Assembly instructions for wall bracket for swivel arm

1. check the package for completeness

Please note: the screws/wall plugs supplied are intended for concrete ceilings. Make sure that they are suitable for the surface to which you are attaching the unit and, if necessary, replace them with screws and wall plugs that are suitable for your surface.

1. Make sure that the surface on which you want to mount the carrier can withstand the load capacity of the device and the weight of the carrier including the cable winch.

2. Now drill the holes at the appropriate distance.

3. Attach the swivel arm to the supplied wall bracket.
