

NEW PRODUCT!

Announcement Number: S04052102

Cooler Bypass Delete Kit

#6R80-CLR-BYPASS

6R60, 6R80 GEN1 and GEN2

Does not fit ZF6

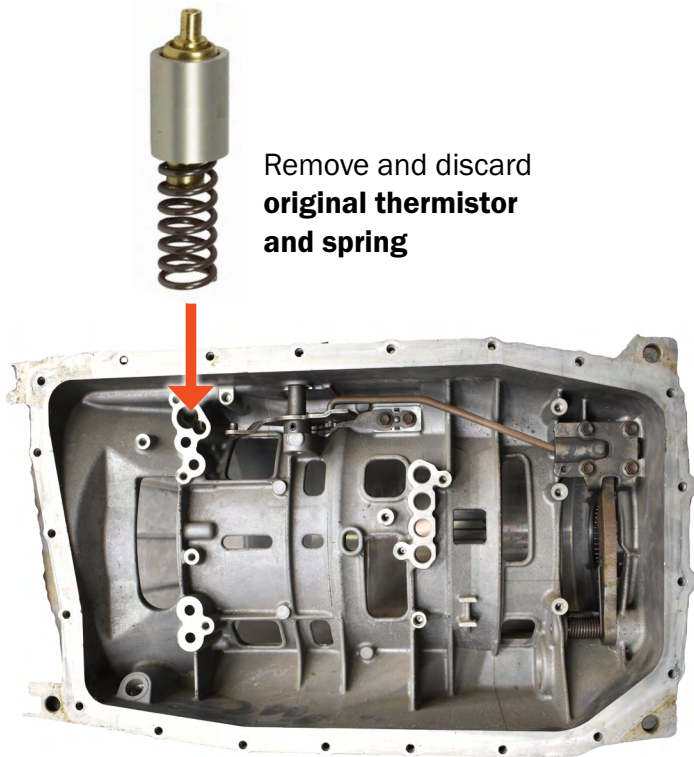

An easy, no-hassle cost-effective drop-in solution

Corrects/Prevents/Reduces:

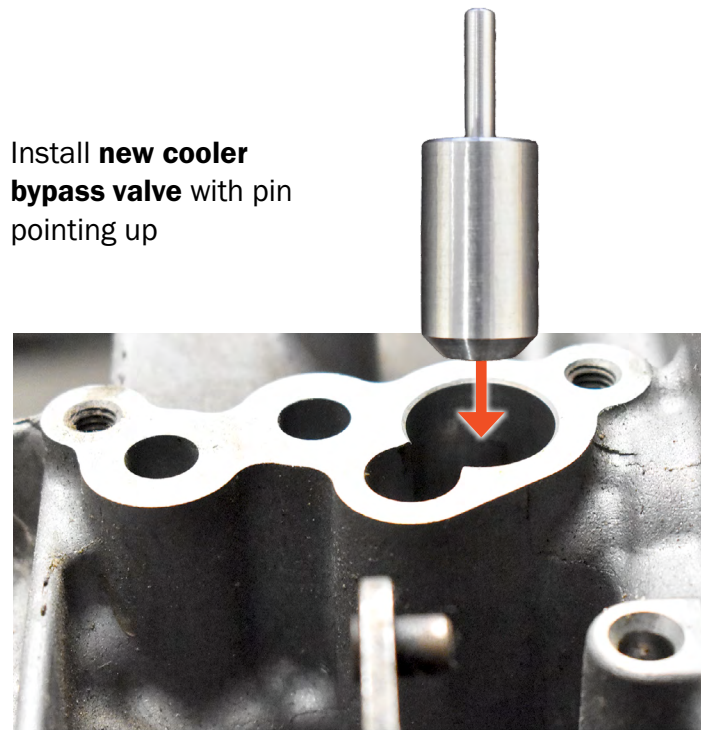

- Provides all-time cooler flow regardless of temperature
- Prevents overheating
- Reduces transmission fluid temperature
- Eliminates thermostatic assembly
- Allows you to accurately check fluid level immediately after install without having to wait or go through a warm-up cycle

Cooler bypass delete kit includes:

- Cooler bypass replacement assembly

Remove and discard **original thermistor and spring**

Install **new cooler bypass valve** with pin pointing up

**ENGINEERED FOR PERFORMANCE.
DESIGNED FOR DURABILITY.**
