

4L60E-VBPLUGS

Fits: All 4L60E, 4L65 & 4L70E

Corrects/Prevents/Reduces

Falls out of 4th, no 4th, TCC instability or surging especially during cylinder deactivation.

Tip: Lubricate O-rings and valve bore to ease installation.

Step 1 Assemble O-ring into O-ring groove as shown. Lube O-ring and bore and insert O-ring end into bore first. Re-use original retainers.
