As in all construction work, there will be areas where we will have excavation, moving equipment, and traffic congestion. Please be advised to exercise appropriate caution when traveling in or through these areas. We ask that you explain these conditions to all members of your household or business, and caution small children to avoid those areas. We know that this is an inconvenience to you, but hopefully it will be minimal. This project will enhance the quality and performance of your sewer and/or water service.
