The Power of Intention

There are many ways to relax.

With specific intentions in mind, you're more likely to achieve your desired outcomes. Our spas are programmed to help our guests realize a specific goal. By selecting from three intentions, CALM, ENERGIZE or RESTORE, the corresponding experiences take you down a path to your chosen outcome.

CALM

A warm lavender scented towel combined with special breathing techniques will start off this treatment experience designed to release muscle tension, create a peaceful state of mind, encourage rest and reduce skin irritation.

ENERGIZE

These invigorating treatments begin with a refreshing citrus infused towel and are designed to help guests realize their full energy potential, harness essential life force and create balanced focus.

RESTORE

An acupuncture hand massage and warm ocean scented welcome towel initiates this treatment experience focusing on cellular renewal, improved immune function, purification and instills ageless radiance.
