Ethics

COMPANY BACKGROUND

WeDesign Solutions (Pty) Ltd is an Information Technology Solutions enterprise that was founded in 2019 by a team of skilled and qualified individuals, who strive to improve the lives of this generation through the power of technology. We endeavour to simplify and enhance the data and technology of our clients, whilst upskilling those in need of digital mentoring.

Our initiative came upon the realisation that SMMEs lack the technological expertise required to better understand their environment, their clients and their data – which was hindering their progress. We have assembled a team of qualified individuals from various fields to assist our clients with every aspects of their online presence, their software and most important their business.

Our aim is to reduce and eliminate the time our clients spend on software related concerns and improve the time our clients spend on focusing on what is really important to and for their business. We provide world-class tailor-made software that supports your core business objectives, as well as supports you and your clients.

In essence we are a company that focuses not only on creating and utilising software solutions but we invest in creating and maintaining quality relationships that assist our clients grow their company and reach their targets in the most effective way.

OUR INITIATIVE

At WeDesign Solutions (Pty) Ltd, we believe software is the key to surviving and thriving in the digital age. Furthermore, we believe that being computer literate can ultimately elevate poverty and uplift the state of our country. With this in mind, we take it upon ourselves to educate, upskill and mentor the youth of South Africa.

As qualified professionals with experience in our various fields, we look to uplift the literacy of those who are motivated enough to learn new skills as well as motivate those who require that extra push.
