

HOW TO USE THIS RESOURCE

Welcome! We're so glad you are investing in developing leaders to reach more people for Christ! I pray that you will not only be blessed by the impact of developing Godly leaders but that you enjoy the experience thousands of others have through Joshua's Men.

Here's how to get started:

- A.** First, listen to the 25-minute audio titled "An Overview of the Joshua's Men Process." (Note-taking guide is also provided in the *Getting Started* section.)
- B.** Next, read carefully through the 25 Most Frequently Asked Questions about *Joshua's Men*.
- C.** Then, briefly review all the material for a big-picture overview, and you will be well on your way.

Here are a few useful items to make Joshua's Men an even more user-friendly resource:

- A.** Each month begins with a leader's guide; go through it carefully, and all the other components will make sense.
- B.** Within each of the (monthly) lessons that you'll teach and discuss with your group, wherever appropriate, please use your own illustrations that best relate to your situation. And, of course, add or delete illustrations wherever you choose. There is a corresponding note-taking guide in the participants section each month.
- C.** It is highly recommended that you print out the materials and organize them in a three-ring binder. Then as you make your changes, print out the section you modified and put it in your notebook.
- D.** Have fun! Use Joshua's Men as is or adapt it in a way that fits the men in your church best.

Blessings,

Dan Reiland
