

CHURCH PLANTING

VISION

**Church Planter
in Residence**

Through our Church Planting Network we plan to plant two new churches per year in 2024 and 2025. The single greatest factor in a successful church plant is the planter themselves. We would like to bring 1-2 church planters onto our staff for 9-12 months to accelerate their development and preparation to plant churches. This \$100K investment ensure we have great church planters ready to launch new churches.

Buffalo Church

Buffalo Church (www.buffalo.church) launched in January and for Easter had over 400 attend and saw 44 people say “Yes” to Jesus. Our investment goal for 2023 is \$35K.

VISION GAP

\$195,000
VISION COSTS

SUCCESS STORIES

StoryHill Church

The best way to reach new people in a community is through a new church, and your generosity continues to move the Kingdom forward in new cities across the country. We have plans to launch our 5th church plant this February in suburban Milwaukee. Josh and Emily Koskinen have a deep passion for the community and are busy preparing for StoryHill Church to make a gospel impact in their community and beyond. Your giving has allowed us to continue building a pipeline of future church planters. We're optimistic that through the pipeline you helped establish, we could more than double the number of churches we've planted by 2025. Each plant can reach hundreds, and maybe even thousands of unreached people in each city. Your giving leads to people saying yes to Jesus for the first time and helping to establish churches that root them in their faith journey!
