Summary

Hi, my name is Mingyu Kwon. I'm Korean and 23 years old. I can work as a shoes designer or bike mechanic. I have a bachelor's degree in Footwear Design course of London College of Fashion, and I have a Korea national bike mechanic license too. Hope to work in fashion industry or bicycle industry, both are my favourites. I'm a passionate, creative, and flexible worker. Also, I'm always open to learn and experience new things.

As a Shoes Designer

Collaborative designer pushes boundaries and challenges norm to create visually sophisticated designs fit for brief. Understands production processes and works flexibly, responding to and incorporating feedback to achieve desired vision. Out-of-the-box thinker and designer produces relevant designs taking advantage of market trends. Excellent communicator and negotiator receives feedback well. Analyses various methods, techniques and materials to optimise designs.

As a Bicycle Mechanic

Reliable professional with excellent problem-solving and customer service skills. Demonstrates broad familiarity of bikes and parts to make high quality repairs. Responsible mechanic with exemplary skills in adjusting components and gears, installing new parts and assembling new bikes. Detail-oriented and precise in fixing and installing parts.

Experience

Shoe Designer

Yibri, Not employed but collaborated. | London | July 2024 - July 2024

- I provided shoes of my brand(Innocent Design LAB) to another fashion brand, Yibri. We did a collaboration work. We took photoshoot of our products and the photos will be used for Yibri's next season collection.

Custom Shoemaker assistant voluntary work

Goblin Shoes | Seoul | December 2019 - January 2020

- I worked as an assistant of head designer to get some shoe design experience to enter London College of Fashion. Thanks to the experiment in real industry, I could enter my college.
