# Updater 101

## WHAT IS UPDATER?

Updater is your newest digital amenity – a time-saving tool that helps streamline the entire moving process for both your residents and your team. Residents moving into or out of your community now get free access to your co-branded, custom dashboard that helps them organize and complete all of their moving-related tasks in one online space.

## WHAT DOES UPDATER DO FOR ME?

**DID YOU  
KNOW THAT**

**74%**

of renters wish their management company offered moving assistance?

Updater provides you an easy way to lend residents a helping hand during a stressful time – boosting resident satisfaction and saving you time as well.

## WHAT DOES UPDATER DO FOR MY RESIDENTS?

Updater helps your residents with any and all moving-related tasks, including updating accounts and records, connecting utilities, forwarding mail, and more! Be sure to check out our “Features Overview” section for a deep dive on our resident-facing features.

## WHAT DO I HAVE TO DO?

Not much at all! We've designed our platform to run completely behind the scenes, requiring no extra work from your team. It's the closest thing to magic we could come up with. All you have to do is talk about Updater as one of your amenities with prospects and future move-ins.

# How It Works

Updater is a digital amenity that works completely behind the scenes. That's right, there's not much you need to do to make it work!

Our technology is directly integrated with your property management software which allows us to pull basic resident information in real time as you're leasing. As long as your residents have the required information and the correct status listed in your property management software, they will receive an Updater invite without you having to lift a finger.

## WHAT INFORMATION IS REQUIRED?

Your property management software must have your residents':

1. First and last name
2. Email address
3. Move date
4. Address(es) they are moving to and/or from

## IS MY RESIDENT'S INFORMATION SAFE WITHIN UPDATER?

Absolutely! We take your residents' [privacy](#) very seriously, so all of their information is secure within our system. We also never collect highly sensitive information from your residents.

## WHEN WILL RESIDENTS RECEIVE THEIR INVITES?

Updater invitations are sent 35 days prior to your residents' move date. If a lease happens within that 35-day time period, Updater invitations are sent the very next business day. Please keep in mind that each software has its own specific triggers. For more details on how invites are triggered at your community, contact [success@updater.com](mailto:success@updater.com).

### WHAT IF MY RESIDENT IS MISSING AN INVITE?

If your resident did not receive an invite to Updater, please verify that their information and status in your property management software meet our requirements. If they do, feel free to get in touch with us.

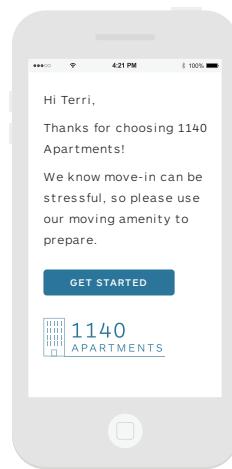

### IS THERE ANYTHING ELSE I SHOULD DO?

Talk to your residents about Updater – it's that simple! Advise them to keep an eye on their inbox for their very own Updater invite – it's the best way to make sure they take full advantage of your property's newest digital amenity.

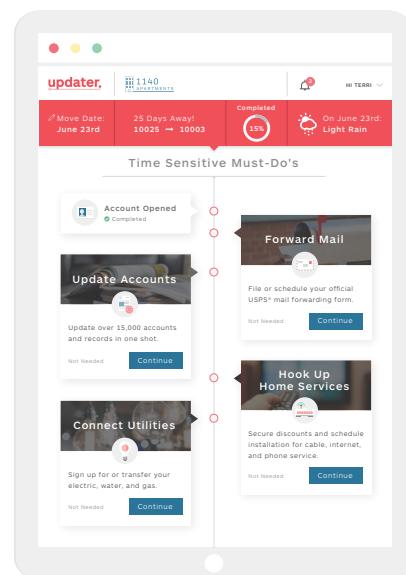

#### INTEGRATE

#### INVITE

#### MOVE-IN

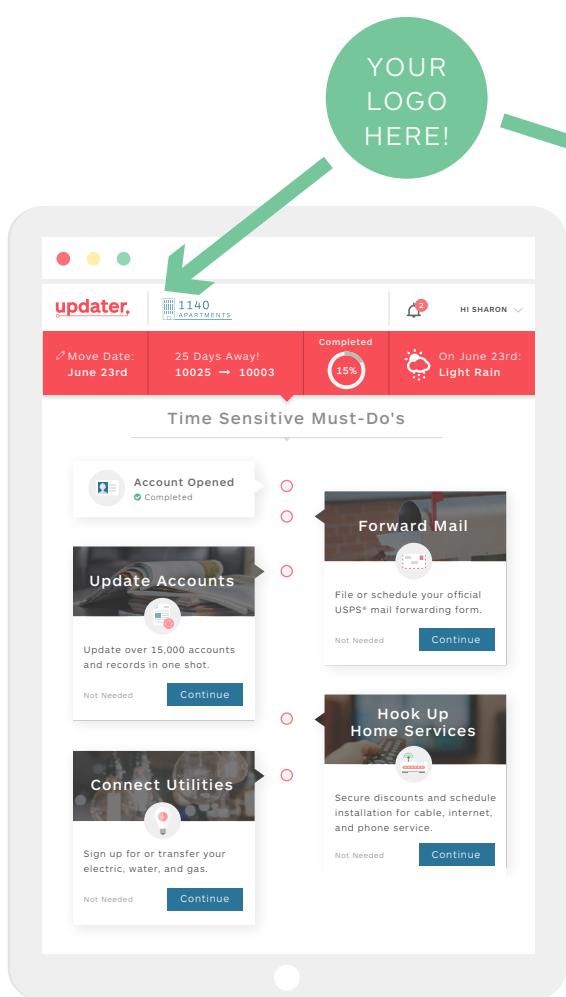

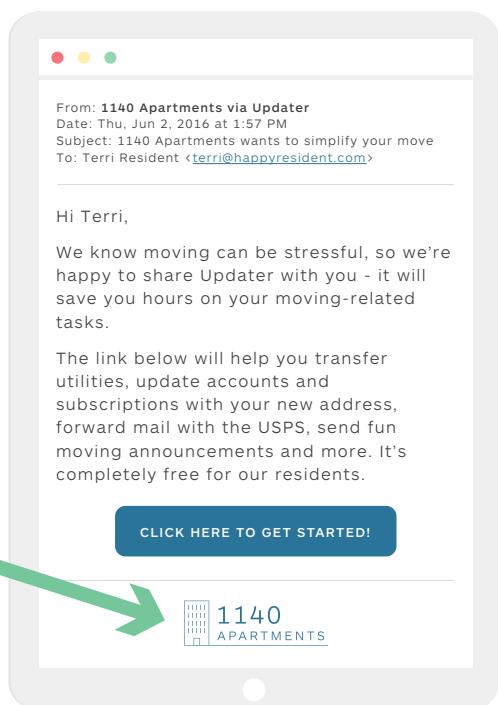

We integrate with your core management software to pull resident information.
