Longer About / Brand:

Hi, I'm Luna

I'm an artisan who uses craft paper to recreate the beauty of nature and share it with you.

It all started eight years ago. I had the idea to craft several paper flowers for my wedding and fell in love with the endless possibilities of botanical papercraft. After years of honing and perfecting this unique skill set, I'm proud to offer you our selection of bespoke handmade gifts. Artisanal papercraft is a true passion for me, and I couldn't be happier to share my work with you and yours.

Today, Petalis is a thriving family business. I make everything 100% by hand right here in Australia. My two helpers, Summer, and Daisy, 3 and 1, are often at my side while I create. Daisy loves to play with the paper roller machine, and Summer has been known to hide petals away and decorate them with rainbows (her favorite). Occasionally she'll even sneak a few of her special rainbow petals into an outgoing parcel, so if you find a little surprise in your package, you'll know it's from Summer!

Creating artisanal papercraft is an intimate, meticulous process akin to meditation. There's no way to mass-produce Petalis pieces, and we wouldn't want to. Each piece requires hours of careful paper selection, cutting, folding, painting, and gluing to create a one-of-a-kind expression of the beauty of nature.

What makes us truly stand out from other botanical paper art? I've developed a unique method of construction that uses premium paper cardstock. Unlike commonly used crepe paper, our cardstock is durable and holds its shape and vibrant color better. So, you get heirloom-quality gifts that are long-lasting, easy to care for expressions of your love that can be shared for generations.

So if you're looking for a custom personalized gift, choose Petalis. You'll be giving life to art!
