<sup>1</sup> MIAT College of Technology does not provide on-campus room and board at any of its campuses. The room and board and transportation costs shown are estimates derived from the MIAT used data from the U.S. Bureau of Labor Statistics to determine the average amount spent on housing costs. This is an estimate and actual housing costs will vary by student depending on where they decide to reside. The average amount spent on traveling to and from the campus and maintaining the vehicle. Room and board and transportation is not prorated based on the number of credits student will be taking.

<sup>2</sup> The graduation rate calculation mandated by Massachusetts regulations compares two largely unrelated groups of students who started in the program in the same year and may result in confusing figures if, for example, the number of people starting the program declined or expanded dramatically from year to year. For instance, if 50 students started in a program in 2016 and 100 students, who started in earlier years, graduated in this program in 2016, the required calculation would result in a 200% graduation rate.

<sup>3</sup> Programs with low student counts may generate scenarios with all enrollments occurring in one calendar year, and all graduates in a subsequent year. These instances mathematically produce a graduation rate of "infinity," represented by "0" in our data.

<sup>4</sup> The Canton, MI campus (OPEID 020603) includes one (1) branch campuses in Houston, TX cohort default rate data is reported on a consolidated basis for these locations in accordance with 34 CFR Part 668, Subparts M and N.
