

TRANSPORT FOR RUNNERS AND COMPANIONS

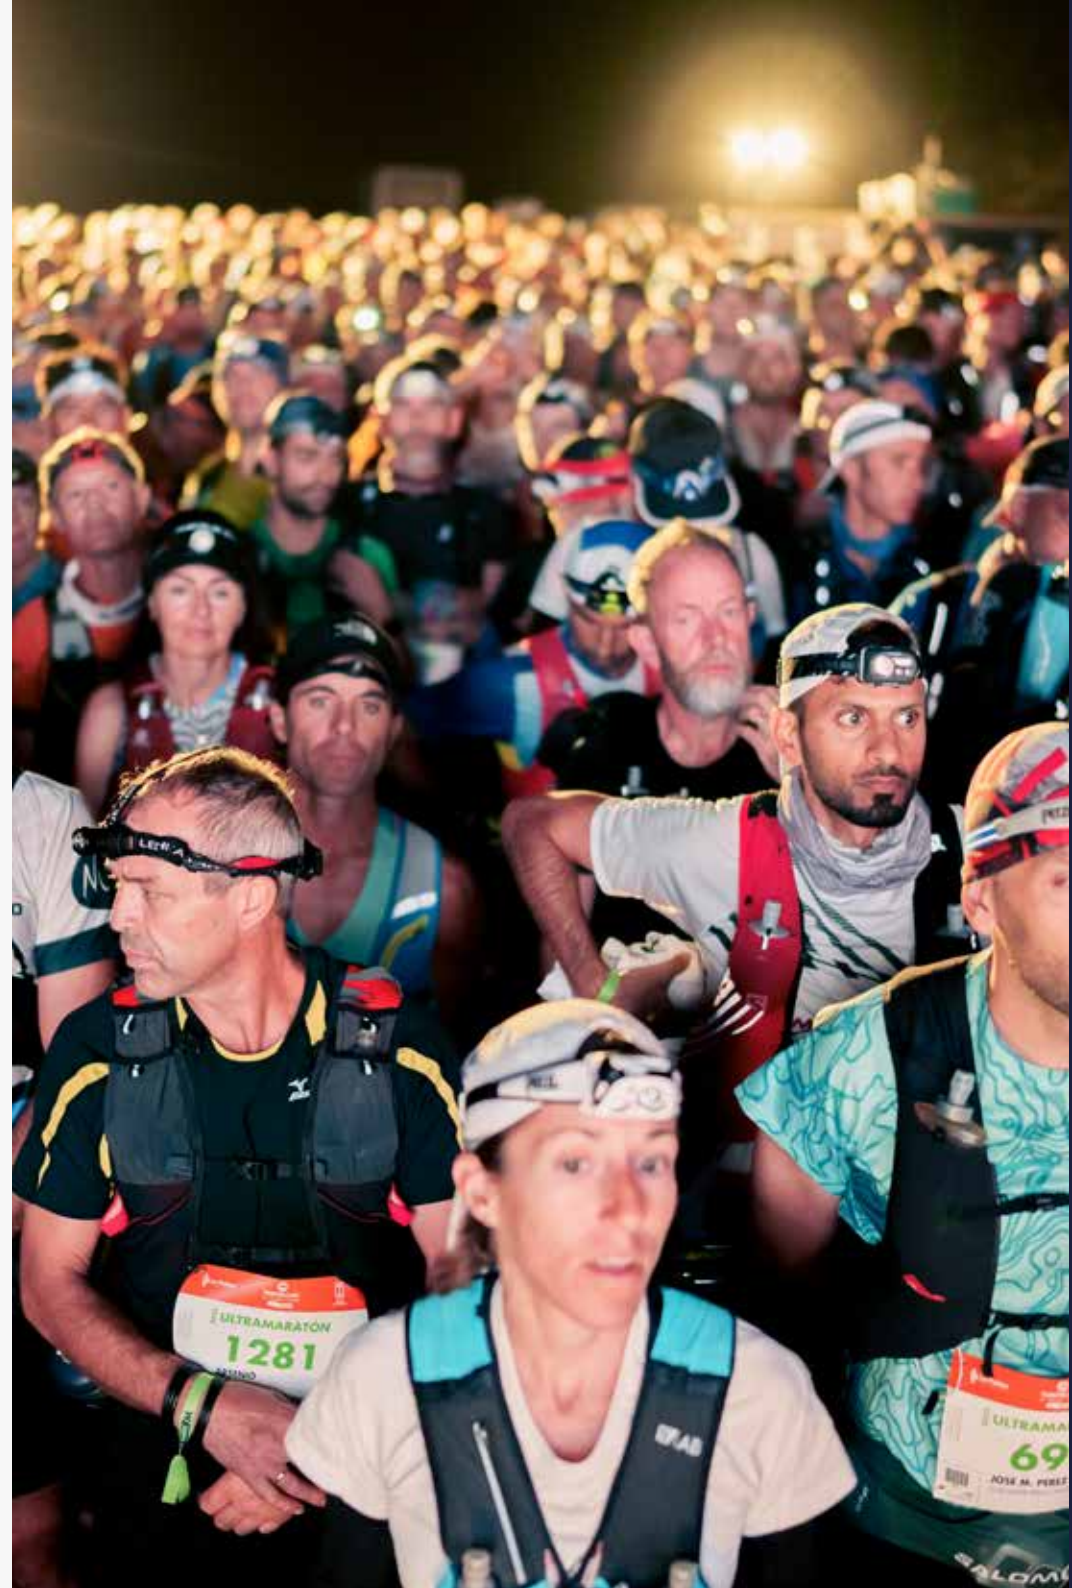

TRANSVULCANIA BY UTMB® 2023

All transport services must be booked in advance through our website. The booking system will be opened during the month prior to the event.

All services to runners are included in their race bib and are free of charge. Services for companions are charged.

We encourage you to use the transport services to departures, in order to reduce your carbon footprint and avoid traffic jams. The organisation's buses will have preference in the circulation and are a guarantee to arrive on time to the departures. The accesses to the Faro de Fuencaliente and Roque de los Muchachos can be problematic (even with road closures). Companions will be able to accompany their runners by purchasing a bus pass, which will be on sale exclusively on the website (no passes will be sold on the day of the event). This pass will give you access to the organisation's buses that will transport you to the departure, take you to the finish area in Los Llanos de Aridane, and take you and your runner back to the place of initial departure.

Due to the peculiarity of the island of La Palma, it is impossible for the companions to follow the runners by bus and arrive on time at the finish line.

TRANSPORT FOR RUNNERS AND COMPANIONS
