Further information: <https://utmb.world/utmb-index> and <https://utmb.world/es/utmb-index/runner-search>

However, it is important to be aware of the demands of the terrain and that these are semi-self-sufficient races. Tenerife Bluetrail 110K is not an event to start in trail running races. For this reason, the organization recommends having a UTMB® Index, that is a minimum performance level, of 410 in the race category 100M to be carried out since it is the value with which the cut-off hours have been fixed. With a UTMB® Index below that figure, it is very likely that the runner will not be able to overcome the cut-off barriers by not complying with the established times. It is advisable not to enroll in Tenerife Bluetrail 100M with a UTMB® Index less than 410. The organization is very demanding in the fulfillment of the maximum hourly barriers of passage.

For security and control reasons, the registration is nominal and non-transferable. It is not allowed to transfer the registration to another race or another person, whatever the reason. Therefore, in case of not being able to attend, the runner must process the cancellation through the enabled channels.

4) CANCELLATION OF A REGISTRATION – REFUNDING POLICY

a) Cancellation insurance

Runners are offered the possibility to subscribe to a cancellation insurance. Purpose of cancellation insurance is to reimburse registration fees paid for the 2024 Tenerife Bluetrail by UTMB® event when the insured is forced to withdraw.

Runners who wish to subscribe to the cancellation policy will be asked to pay an additional 12% of the total amount, to be added to the registration fee. **Cancellation insurance must be booked exclusively at the time of registration.**

Cancellation of an entry or non-participation in the race does not entitle the runner to benefit from a priority entry for a subsequent year.

There will be no type of refund for runners who wish to cancel their registration and have not contracted their cancellation insurance.

b) **Exceptional conditions in case of event cancellation**

If the event or a race is canceled, or if the event must be organized differently (for example, one or more races must be canceled), for any reason not attributable to the control of IDECO, S.A., more than 30 days before the start, runners may be partially reimbursed for entry fees. In such a case, the amount of the refund would be decided in a way that allows the organization to meet the expenses incurred from the date of cancellation.

5) TRANSFER OF REGISTRATION

a) **Transfer to another runner**

For security and control reasons, registration is personal and non-transferable. The transfer of the race bib to another runner is not allowed.

b) **Transfer to another race in the same event**

It is possible to change from one race to another race of shorter distance up to 1 month before (6th May) the race if places are available. The difference in registration fees will not be refunded.

It is also possible to request a change of registration to a race of a longer distance. This change will not be made automatically, and it will be up to the race organisers to decide whether to accept it or not. In this case, the runner will have to pay the difference in price. The price will be the price in force at the time of the acceptance of the change by the organisation.

6) ACCIDENT, RESCUE AND LIABILITY INSURANCE

All officially registered participants, whether federated or not, will be covered by an insurance policy arranged by the Organization. This policy will cover accidents that occur as a direct result of the development of the event and not as a consequence of an illness, latent ailment, or due to imprudence, negligence, non-compliance with these Regulations, or the application of higher-ranking regulations. Accidents that occur during travel to and/or from the location where the event takes place are also NOT covered by this insurance.

The organisation will take out Civil Liability insurance in the name of each runner (already included in the registration fee), in accordance with the regulations of the competent authority in each case.

7) ELITE RUNNERS

In regard of justified recognition for athletes of a high calibre and for fair management of registration, we reserve places for elite athletes, who request a place, according to their performance index. Elite runners must register before 30th May 2024. Entries will not be accepted after the deadline. If a race is sold out, the organisers reserve the right to accept or reject the registration of an elite.
