

# 2026 Ultra-Trail Kosciuszko by UTMB Terms and Conditions

(KosciMiler, Kosci100, Kosci50, Kosci30)

## KosciMiler

Completing a KosciMiler is a physically and mentally challenging event and participation in it requires significant training and preparation. For your health and safety, we require evidence of your ability to take part by meeting this qualification criteria below:

- A 50km or longer run result (Official or Unofficial) between 15 October 2024 and 15 October 2026 must be uploaded into your event registration either during the initial registration or at a later date via the [Participant Dashboard](#).
  - **Official Result:** a photo of your completion of an official trail race, 50km or longer. You must be an official finisher and complete the course within advertised cut off time. This means, for example, you cannot submit a result showing you made it 55km into a 100km race.
- Race management reserves the right to reject any result deemed not meeting the above criteria.

You will only be contacted should your result (official or unofficial) not meet the above criteria. You will be provided an opportunity to re-submit your result prior to the cutoff date of 15 October 2026. In the event you do not meet the criteria by the cutoff date, you will be notified and automatically moved into the Kosci100. Standard athlete withdrawal and distance transfer options apply.

## Kosci100

There is no pre-requisite of competing in or finishing any trail running event to participate in the Kosci100.

All participants of the Kosci100 should be experienced in trail running, including sufficiently skilled and trained to undertake a trail run event. The course is tough, demanding, and is remote in sections that can result in slower first aid / rescue response times. It is a combination of fire trail, narrow walking tracks, some very steep sections on staircases, ladders, river/creek crossings, dirt, on rock and sections that are rough under foot.

It is the participant's responsibility to ensure you are physically fit enough to complete the distance you have entered and monitor your health and condition during the event, including knowing when to withdraw from the event if you are no longer fit enough to continue.
