

*Time passes, things change,
but memories will always stay
where they are, in the heart.*

Take Care, Stress Less

Dear Student,

We are proud to announce that you completed your grade 11 and 12 studies at the Modern School/ College (Management and Law), a prestigious +2 management and law center renowned for its high-quality educational profile that welcomes student communities across the country with various cultural backgrounds. The Modern confirms that it has maintained, at best, a few benchmarks for quality in terms of educational systems and procedures, with a student-centered, and well-nurturing environment.

The benchmarking we have reached so far is not exactly the effort of a single individual rather, it is the result of the collaborative efforts of our esteemed parents and guardians, proactive and astute administrators, competent, responsible, and dedicated teachers, and—above all—your incredibly admirable consistency to learn, active involvement in the curricular and extracurricular activities, who we will always cherish as a vital member of the Modern Family.

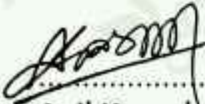

Modern made the best effort to support your academic and extra-academic progress and to elevate your personality and character. During your two years at Modern, you showed discipline and humility in your interactions with our esteemed faculty, staff, junior students, and among yourselves. Your remarkable experiences and accomplishments at Modern serve as evidence that our team, which consists of committed staff members, qualified and compassionate teachers, and visionary patrons, continuously puts forth great effort to bring out the best in every one of our students. Additionally, the valued parents and guardians' ongoing support and input have been extremely helpful and deserving of recognition.

Even though we may have occasionally been very strict in carrying out our duties, it was specifically because we wanted to prepare you for every kind of scenario that may arise in the future, aside from the fact that our efforts were focused on getting you ready to become a good human and smart Entrepreneur, CA, Businessman, IT officer, Chef, and future lawyer and many more.

We would appreciate it if you encouraged your siblings, friends, or relatives who are considering studying management/law to apply to Modern, considering the significant influence that your mentions, recommendations, and ideas have on aspiring applicants. In addition to the faith, love, and patronizing instructions extended by your parents, whom we will always welcome, we sincerely appreciate your positive support, hard work, and cooperation toward the Modern. We hope to receive your creative and constructive support as our alumnus and, of course, a future partner shown toward the Modern administration and respected faculty. We will remember every one of you for the humility, cooperation, talent, and performance that you exhibited during your time at Modern.

Finally, as a part of the Modern graduate community, we hope that you will always regard yourself as a positive representation of our college and maintain contact with us. Please don't hesitate to contact us if there is anything we can do to help you in the future.

On behalf of the Modern family, I wish you a marvelous journey of life filled with persistent achievements and happiness.
