

VALLOX COOKER HOODS

Compatibility of older Valmet, MUH and Vallox cooker hoods

VALLOX
HOME *of* FRESH AIR

The type plate of the old cooker hood contains a letter combination that can be used to select the new Vallox cooker hood. The mere type number is not, however, sufficient to identify the type of the cooker hood. The widths are 500 and 600 mm.

Old hood

Replacement Vallox X-Line hood

Replacement Vallox Delico hood

KTXEA and KTC EA cooker hoods

These cooker hoods are connected to the joint extraction system of multi-storey buildings. They enable the removal of cooking smells to be boosted by means of a timer damper and also include a smoke limiter.

Vallox X-Line KTXA cooker hood and Vallox Smoke Limiter

These cooker hoods have fixed glass and a damper with a timer function.

HVAC codes:
7911125 KTXA 500 white
7911127 KTXA 600 white
7911286 Smoke limiter

Vallox Delico KTD A cooker hood and Vallox Smoke Limiter

These cooker hoods have a steam collection part that can be pushed inside the hood, a damper with a timer function and a guard function.

HVAC codes:
7911291 KTD A 500 white
7911292 KTD A 600 white
7911293 KTD A 500 black
7911294 KTD A 600 black
7911286 Smoke limiter

The smoke limiter meets the requirements set for a choke used in a joint duct system (max. 42 l/s/100 pa). The air volume of the new cooker hood and smoke limiter must be adjusted to the same as in the old cooker hood by using the cooker hood damper and the adjustment damper on the smoke limiter.

LT, LTX and LTC cooker hoods

These cooker fans have their own actuator.

Vallox X-Line TTXP EC house extraction fan

The TTXP EC house extraction fan has fixed glass, a fan speed adjustment, an EC fan, and a damper. The 0 position is activated during the setup phase. When used as a cooker hood, the house extraction fan's outlet collars are left plugged.

HVAC codes:
7911309 TTXP EC 500 White
7911311 TTXP EC 600 White

Vallox Delico PTD EC cooker hood and Vallox Duct fan

The PTD EC cooker hood has a steam collection part that can be pushed inside the hood, fan speed adjustment, a damper with a timer function and a guard function. The On/Off switch is only used when needed. The duct fan has an EC fan, and it can be installed above the cooker hood or, e.g., on the false ceiling in the kitchen or bathroom. When used as a cooker hood, the duct fan's outlet collars are left plugged.

HVAC codes:
7911287 PTD EC 500 white
7911288 PTD EC 600 white
7911289 PTD EC 500 black
7911290 PTD EC 600 black
7911305 Duct fan

Old hood

TT, TTX, TTXP, TTXR, TTC and ILMO cooker hoods

These models have a fan installed above the cooker top, which removes cooking smells but also serves as the extraction air unit of the entire apartment or removes the cooking smells generated by a separate wood-burning cooker. There are three outlet collars on top of the house extraction fan. The middle one is used for blowing exhaust air towards the roof, whilst the other two are connected to the extraction air ducts led e.g. from the bathroom and the toilet.

Replacement Vallox X-Line hood

Vallox X-Line TTXP EC house extraction fan

The TTXP EC house extraction fan has fixed glass, a fan speed adjustment, an EC fan, and a damper. If your old house extraction fan has an On/Off switch, you can activate the TTXP EC's 0 position during the setup phase. One of the house extraction fan's outlet collars can be left plugged.

HVAC codes:
7911309 TTXP EC 500 White
7911311 TTXP EC 600 White

Replacement Vallox Delico hood

Vallox Delico PTD EC cooker hood and Vallox Duct fan

The PTD EC cooker hood has a steam collection part that can be pushed inside the hood, fan speed adjustment, a damper with a timer function and a guard function. The On/Off switch is only used when needed. The duct fan has an EC fan, and it can be installed above the cooker hood or, e.g., on the false ceiling in the kitchen or bathroom. One of the duct fan's outlet collars can be left plugged.

HVAC codes:
7911287 PTD EC 500 white
7911288 PTD EC 600 white
7911289 PTD EC 500 black
7911290 PTD EC 600 black
7911305 Duct fan
