

# VALLOX X-LINE PTX, PTXP, PTXPA

## DIMENSIONS

## EXTERNAL CONNECTION

Electrical connections may only be done by an authorized person.  
(EC = Electrical Constructor)

## DESCRIPTION OF OPERATION

### Vallox X-Line PTX

- The cooker hood is equipped with a steam collection part, a fixed glass, a grease filter, a damper, and a fluorescent lamp.
- The cooker hood has a four-speed fan speed adjustment for AC fans (max 340 W) and a 0 position. Control voltages can be pre-selected from eight options.
- The minimum air flow of the cooker hood can be measured.

### Vallox X-Line PTXP

- Same as PTX, but forced-operational (no 0 position).

### Vallox X-Line PTXPA

- Same as PTXP, but the cooker hood is equipped with a timer damper that remains open for 60 minutes. Potential-free contact data (ends closed) is provided of the position of the damper.
