VALLOX
HOME *of* FRESH AIR

MYVALLOX-HEAT RECOVERY VENTILATION UNITS

Vallox MV units are controlled through the MyVallox Touch or MyVallox Control panel, which is delivered with a fireplace switch that has timer functions, a maintenance reminder, and a week clock. The unit can be connected to the free MyVallox Cloud service, which enables remote control via an Internet connection also when travelling. Registration with the cloud service also allows for the technical support to access the unit remotely, as well as automatic updates.

The MV units feature integrated humidity and carbon dioxide sensors that detect changes in the humidity and carbon dioxide balance inside the apartment and adjust the efficiency of the ventilation automatically based on the need.

TECHNICAL INFORMATION

INTERNAL SENSOR

Automatic boost, internal humidity and carbon dioxide sensors

REMOTE MONITORING OPTIONS

MyVallox Cloud service, MyVallox Home network, External voltage message 0-10 VDC

FIREPLACE SWITCH FUNCTION

Fireplace switch function via a control panel or a separate push switch using the Custom mode.

WEEK CLOCK CONTROL

BUS CONTROL

KNX converter (optional), Modbus RTU (standard feature)

COARSE FILTERING OF SUPPLY AIR

ISO Coarse > 75 %, ISO ePM1 50%

COARSE FILTERING OF EXTRACT AIR

ISO Coarse > 75 %

VALLOX TSK MULTI 50 MV

The MyVallox Touch control panel is included in the price.

- Cross-counter flow cell, efficiency > 80%.
- Frame painted white from the inside.
- The safety switch turns the power off when the door is opened.
- The Vallox Silent Klick siphon is included in the price.

VALLOX X-LINE TTXP EC

- Fixed glass.
- Efficient LED light.
- Dishwasher-proof grease filter.
- Colour white.
- Widths 500 mm and 600 mm.
- Wall mounting.
- EC fan with low electricity consumption.
- Damper.
- 0 position can be activated at setup.
- Can also be used as the cooker hood.
- Cover strip must be ordered separately.

VALLOX DUCT FAN

- Vallox Duct Fan is mounted on top of the cooker hood or as an extract air fan in the ceiling structures of the bathroom, for example.
- The duct fan can serve both as a cooker hood and a house extraction fan.
- The compatible cooker hoods are Vallox Delico PTD EC, Vallox X-Line PTXP MC and Vallox X-Line PTXPA MC.
- The duct fan can also be paired with other cooker hoods that are suitable for controlling EC fans.
- The duct fan's service door enables easy maintenance of the fan without disconnecting the duct.

VALLOX OUT/IN VARIO

- For the blow-out and intake of air by ventilation units through the wall.
- The size of the air blow-out opening can be adjusted. The initial speed of the blow-out air is 5 m/s, with a pressure loss of even less than 20 Pa.
- The handedness can be changed.
- The air blow-out part and the air intake grille can also be installed separately.
- The ability to separate rainwater is > 96.6% in case of the air blow-out part and or 100% in case of the air intake grille (EN 13030).
- Reliable also in low outdoor temperatures.
- Patented 1915860.2-1008, Eurofins Certificate No EUFI29-20005601-C.
- Easy and quick to install.

VALLOX SILENT CONDENSING WATER SEAL

- Water seal with a special structure for the removal of condensing water.
- Enables a 'non-bubbling' floor drain installation.
- The condensing water outlet is normally connected to the floor drain via a one-way valve.
- The valve prevents air flow in the pipe but allows condensing water to flow into the floor drain.

TERMS OF DELIVERY

Our products are available via all HVAC retailers in Finland. These terms of delivery do not apply to purchases from the Vallox filter online store.

Prices

Prices (VAT 0%) ex warehouse. We reserve the right to make changes to the price list without prior notice

Delivery term, freight and additional charges

Minimum freight EUR 60. Orders of over EUR 4,000 are delivered freight paid. Pallet charge: EUR pallet EUR 15/pallet; FIN pallet EUR 21/pallet. Orders of under EUR 200 (VAT 0%) are small deliveries, and a handling fee of EUR 15 (inclusive of freight) will be added to the price. With the delivery term DAP (Incoterms 2020), the transport fee is charged to the customer as follows:

Postal code area	Freight fee, EUR (VAT 0%)
00 - 59	60
60 - 83	60
84 - 99	90

Time of delivery

According to the delivery date included on the order confirmation.

Acceptance inspection and transport damage

The recipient must check that the delivery is compliant with the delivery note. The recipient and driver must, together, confirm any transport damage and record it in the waybill. Without the entry in the waybill, an incomplete delivery or transport damage will not be compensated for.

Indirect damage

The seller's liability does not cover any indirect damage caused by any delays or incorrect deliveries.

Product returns

You must always agree on product returns in advance with the seller. Returned products must be flawless and in their original packaging. The invoiced price will be fully refunded only if the reason for the product return is the seller's error. Products returned for any other reason are refunded up to 80% of the invoiced price.

Terms of payment

14 days net, interest on late payment according to the Interest Act, unless otherwise agreed on.

Warranty terms

The goods sold are covered by a warranty in accordance with the seller's warranty terms: <https://www.vallox.com/en/service/warranty-practices/>.

Other terms and conditions

In other respects, the general terms for building products, TALTEK YT 2002, shall apply. These terms of delivery remain in force until further notice, and we reserve the right to make changes without prior notice.
