

# DLMC

**DECENTRALISED LEGACY MANAGEMENT CORPORATION**

[www.dlmc.io](http://www.dlmc.io)

# About DLMC

DLMC (Decentralised Legacy Management Corporation) is a blockchain-powered ecosystem engineered to deliver a transparent, secure, and community-governed financial infrastructure, driven by advanced smart contract technology.

## Key Principles:

- ❖ **Decentralization** — Eliminating central control and empowering users with full ownership
- ❖ **Transparency** — Guaranteeing that all processes are openly recorded on-chain and independently verifiable, enabling full auditability.
- ❖ **Community Governance** — Enabling stakeholders to actively participate in decision-making
- ❖ **Long-Term Sustainability** — Building a resilient ecosystem designed for consistent growth

DLMC is committed to empowering participants by removing centralized authority and placing governance directly in the hands of the community.

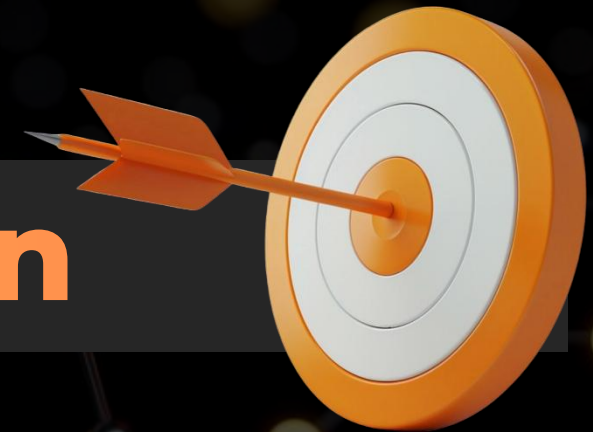

## Our Vision

To establish a **transparent, community-driven decentralized ecosystem** that empowers individuals worldwide through the transformative power of blockchain technology.

## Our Mission

To develop a secure, **fully decentralized platform** that ensures **fair participation, stable tokenomics, and sustainable long-term rewards** for the global community.

# Overview of Blockchain Technology

Blockchain is an advanced **distributed ledger technology** that securely records and stores data across a network of computers, ensuring **transparency, integrity, and decentralization**. Instead of relying on a single central authority, information is shared and synchronized across multiple nodes in real time.

At its core, blockchain organizes data into **blocks**, which are chronologically linked together using **cryptographic principles**, forming an immutable chain. Each transaction is validated by network participants (nodes), ensuring accuracy and trust without intermediaries.

Once verified and added to the blockchain, records become **permanent, tamper-resistant, and publicly verifiable**, making blockchain a highly secure and reliable foundation for modern digital ecosystems.

# The Power of Smart Contracts

A smart contract is a **self-executing digital agreement** deployed on a blockchain, where the terms and conditions are defined and enforced through code. It automatically triggers predefined actions once specific conditions are met, eliminating the need for intermediaries.

By leveraging blockchain technology, smart contracts ensure **speed, security, transparency, and trustless execution**. All transactions are verifiable and tamper-resistant, providing a reliable framework for digital interactions.

Widely used on platforms like Ethereum, smart contracts power **automated payments, decentralized applications (dApps), and complex digital agreements**, forming the backbone of modern decentralized ecosystems.

# Core Strengths of DLMC

DLMC isn't just another project — it's a DeFi revolution, combining BEP-20 network with next-generation tokenomics to deliver transparency, financial freedom, and sustainable growth.

## Built on Decentralization, Transparency, and Sustainable Growth

### Fully Decentralized

No central authority — complete control lies with the community.

### Transparent Smart Contracts

All transactions are executed on-chain and fully verifiable.

### Community-Driven Governance

A DAO-powered model where members actively influence key decisions.

### Stability-Focused Design

Engineered to reduce volatility and support long-term value.

### Secure & Verified

Smart contracts are audited, verified, and ownership renounced for maximum trust.

### Sustainable Reward Model

Designed to incentivize long-term participation and consistent growth.

# DLMC Token Mechanism

The DLMC token introduces an innovative economic framework built for long-term growth, stability, and user-driven value creation.

## Zero Initial Supply

No pre-mined tokens, ensuring a fair launch and reducing the risk of early dumping.

## Mint on Buy

DLMC tokens are minted only when users purchase, creating a demand-driven supply model.

## Burn on Sell

Each sell transaction permanently burns tokens, reducing supply and increasing scarcity.

## Contract-Based Pricing

Token pricing is governed by a smart contract formula, eliminating liquidity pools and ensuring fairness and stability.

## DLMC Design with LPDAO Governance

- ❑ A system designed to automatically manage and optimize liquidity across DeFi platforms, improving efficiency and returns.
- ❑ A decentralized governance model where liquidity providers (LPs) actively participate, helping shape strategies, protocols, and reward distribution.
- ❑ A unique DLMC architecture combined with LPDAO governance, enabling automated liquidity management and community-driven decision-making.

# DLMC Token Mechanism Overview

## General Information

**Token Name :** DLMC Token

**Symbol :** DLMC

**Initial Price :** \$0.10 (USDT)

## Technical Specifications

**Blockchain Network:** Binance Smart Chain (BSC)

**Token Standard :** BEP-20

**Smart Contract :** Deployed on BSC

## Ownership & Governance

**Project Ownership :** Renounce

**Control & Management :** Managed by the Renounce team

## Security & Access

**Contract Address :** Publicly verifiable via a BSC blockchain explorer

# Mint and Burn Strategy

**DLMC — The Mint & Burn Token for Mechanism**

## Ex. \$100 DLMC Token Purchase:

- ✓ **15%** contributes to price appreciation
- ✓ **85%** is utilized for token minting
- ✓ **5%** is allocated to the development team
- ✓ **\$100** is secured in contract liquidity

| Live Purchase Price | Minted (DLMC) | Total Supply (DLMC) | Liquidity | New Price |
|---------------------|---------------|---------------------|-----------|-----------|
| \$0.10              | 850           | 850                 | \$100     | \$0.1176  |
| \$0.1176            | 722           | 1572                | \$200     | \$0.1272  |
| \$0.1272            | 668           | 2240                | \$300     | \$0.1339  |

## Sale Scenario

| Tokens Sold | Remaining Supply (DLMC) | Liquidity After Sale        | New Live Price |
|-------------|-------------------------|-----------------------------|----------------|
| 100         | $2240 - 100 = 2140$     | $\$300 - \$10.712 = 289.28$ | \$0.1351       |

# Liquidity Provider DAO Governance

A **Decentralized** governance model where liquidity providers (LPs) actively participate, helping shape strategies, protocols, and **reward distribution**

## LPDAO

( Governance for Liquidity Providers )

**Total Members**

**250 LPDAO**

**Membership Fee**

**\$5,000** Per Member

A total liquidity Fund of **1 million** will be locked in the contract. No DLMC tokens will be minted from this amount; it will be used only as a backup fund for dividends and rewards.

### Key Benefits →

#### **Governance Participation**

Members participate in governance decisions for every withdrawal transaction.

#### **Withdrawal Policy**

**10%** deduction is applied to all withdrawals within the system.

#### **Revenue Distribution**

Claim Mechanism: A 10% fee is applied to each claim, with the deducted amount equally distributed among LPDAO members as rewards, creating a shared revenue model.

**DLMC**

# Ownership Renounce & Contract Details

—— **Total Liquidity Divided Total Minted Tokens = Real-Time Price** ——

## Key Highlights -

- **Ownership Renounced** – Secure & Reliable Staking Infrastructure
- **Starting Token Price** – \$0.10
- **Price Stability Mechanism** – Designed to prevent downward price movement
- **Mint on Buy / Burn on Sell** – Dynamic supply model to support value
- **All-in-One Smart Contract** – Integrated functionality within a single contract
- **Owner Private Key Published** – Transparency and trust at the core
- **Exclusive Smart Contract Growth Model** – Built for sustainable expansion
- **Backed by Existing Business Model** – Real-world utility and foundation
- **100% Liquidity Locked (Token & USDT)** – Enhanced security for holders

### Creator Address

**0xDd1970a587246185989FbbAd48F6Ba449b792B54**

### Contract Address

**0xF2ca2A3572B26Ae7c479dC7ae36D922113B1bdF2**

# Roadmap & Ecosystem

## Phase 1

### Foundation (0–6 months)

- Launch & Community Foundation
- Smart Contract Deployment
- Staking & Program
- Community Growth & Engagement

## Phase 2

### Expansion (6–12 months)

- Advanced AI personalization
- Multi-Channel Commerce Integration
- API Ecosystem Development
- Partner Marketplace Launch

## Phase 3

### Intelligence & Automation (12–18 months)

- Predictive analytics
- Automated lifecycle workflows
- Cross-platform orchestration
- Enterprise-grade scalability + security

## Phase 4

### Platform Dominance (2+ years)

- Open Ecosystem Development
- AI-native operations
- Global expansion + localization
- Strategic acquisitions / integrations

# How to Register?

- Visit the **DLMC platform** website – [www.dlmc.io](http://www.dlmc.io)
- Please open the referral link you received using the browser or explorer in any decentralized wallet, and then complete the registration process.
- Click **dAAP**
- Click **Connect Wallet**
- Approve the connection from your wallet app

# DLMC Participation

**Designed for Accessibility. Built for Everyone.**

**Minimum Deposit**

**\$1**

- **Easy Entry for All** — Start your journey with a minimal deposit of just **\$1**
- **Global Accessibility** — Open to participants worldwide, without restrictions
- **Transparent Smart Contract Transactions** — Fully verifiable and trustless operations
- **100% On-Chain Execution** — Every process is securely recorded on the blockchain

# Self Deposit Dividend Growth

Get -

# 250%

Dividend Growth on every deposit.

Daily Growth : **1% × 250** days

**Note** →

\$1, \$20, \$50, \$100, \$1000, \$10000 = **\$11171**

Total Dividend Growth : **\$27,927.5**

# DLMC Affiliation Program

**\$100**  
MULTIPLES.

## Automated Staking & Earnings

Engineered for Consistent Rewards and Scalable Growth

- **Automated Staking Mechanism** — Seamless participation with no manual intervention
- **Up to 1% Daily Dividends** — Earn consistent dividend, up to 250% potential
- **Affiliate Rewards Program** — Unlock additional earnings, up to 500% potential ( 250% + 250% )
- **DLMC Token Utility** — Designed to support scalable and long-term earning opportunities

# Affiliate Team Benefits

Get -

# 500%

Every deposit earning limit

**Note** → **\$100** Multiple Deposit

Once a total return of **250%** in dividends or bonuses is reached, further dividend payments cease.

Total Earning growth : **\$500**

# Direct Referral Bonus

## Rewarding Network Growth with Instant Earnings

Earn a **5% commission** on every direct referral once eligibility requirements are met, unlocking a consistent stream of additional income.

### How It Works:

- ✓ Invite a new participant to the platform
- ✓ When they Stake, you earn **5%** of their contribution as a **referral bonus**

### Example:

Invite a friend who Stake **\$1000** →  
You earn **\$50** as a direct referral Bonus

# 15-Level Dividend Bonus

| Level | Self Staking | Direct    | Dividend Reward |
|-------|--------------|-----------|-----------------|
| L1    | \$100        | 1 direct  | 10%             |
| L2    | \$200        | 2 direct  | 9%              |
| L3    | \$300        | 3 direct  | 8%              |
| L4    | \$400        | 4 direct  | 7%              |
| L5    | \$500        | 5 direct  | 6%              |
| L6    | \$700        | 6 direct  | 5%              |
| L7    | \$900        | 7 direct  | 4%              |
| L8    | \$1100       | 8 direct  | 4%              |
| L9    | \$1300       | 9 direct  | 4%              |
| L10   | \$1500       | 10 direct | 3%              |
| L11   | \$1800       | 11 direct | 3%              |
| L12   | \$2100       | 12 direct | 3%              |
| L13   | \$2400       | 13 direct | 3%              |
| L14   | \$2700       | 14 direct | 3%              |
| L15   | \$3000       | 15 direct | 3%              |

**Your network grows like dividends—stronger, wider, and more rewarding with every new connection.**

# Income On Income Booster Rewards

# 20%

Income on Income

**Note** →

**Self Stake:** \$3,000

**Direct Members:** 15

**Direct Business Volume:** \$10000

If **5** out of your **15 direct members** are active, and each generates **\$1,000** in daily income, you will receive a **20% booster reward** based on their earnings

The Booster Reward will be distributed across **3 upline** levels: **10%** for the **1st** level, and **5%** each for the **2nd** and **3rd** levels.

**$\$1,000 \times 5 = \$5,000$ ; 20% of  $\$5,000 = \$1000$**

**You will receive booster reward 1) \$500 2) \$250 3) \$250**

# Rank and Salary Structure

| Rank | Self     | Main Leg    | Other Legs  | Daily Salary | Total Salary |
|------|----------|-------------|-------------|--------------|--------------|
| D1   | \$200    | \$15,000    | \$15,000    | \$7.5        | \$1500       |
| D2   | \$400    | \$30,000    | \$30,000    | \$15         | \$3000       |
| D3   | \$800    | \$60,000    | \$60,000    | \$30         | \$6000       |
| D4   | \$1600   | \$120,000   | \$120,000   | \$60         | \$12000      |
| D5   | \$3200   | \$240,000   | \$240,000   | \$120        | \$24000      |
| D6   | \$6400   | \$480,000   | \$480,000   | \$240        | \$48000      |
| D7   | \$12800  | \$960,000   | \$960,000   | \$480        | \$96000      |
| D8   | \$25600  | \$1920000   | \$1920000   | \$960        | \$192000     |
| D9   | \$51200  | \$3840000   | \$3840000   | \$1920       | \$384000     |
| D10  | \$102400 | \$7680000   | \$7680000   | \$3840       | \$768000     |
| D11  | \$102400 | \$15360000  | \$15360000  | \$7680       | \$1536000    |
| D12  | \$102400 | \$30720000  | \$30720000  | \$15360      | \$3072000    |
| D13  | \$102400 | \$61440000  | \$61440000  | \$30720      | \$6144000    |
| D14  | \$102400 | \$122880000 | \$122880000 | \$61440      | \$12288000   |
| D15  | \$102400 | \$245760000 | \$245760000 | \$122880     | \$24576000   |

**DLMC** Salary contributions through a sustainable system with milestone-based rewards over **200 Days**. **Salary** are calculated on the weaker leg's total daily dividend volume as per the defined percentage.

# User Agreement & Policies

- **Minimum Transaction Limit** : Deposits and withdrawals start from just \$1.
- **Purchase Mechanism** : Each purchase includes a **15%** allocation toward price growth and a 5% contribution to the development team.
- **Claim Mechanism** : A 20% fee is applied on claims—10% supporting price stability and 10% rewarding LPDAO members.
- **Dividend Cycle** : Dividends are initiated within 24 hours of participation.
- **Tiered Rewards System** :
  - \$1–\$99 : Eligible for dividend-only earnings
  - \$100+ : Unlock affiliate income, bonuses, and exclusive rewards
- **Early Staking Advantage** : Stake early to unlock up to **500%** enhanced rewards and bonuses.
- **Maximum Sale Limit** : Users can sell DLMC tokens up to **400%** their staked ID amount, ensuring a balanced and sustainable ecosystem.
- **LPDAO** : A total of **50%** from the LPDAO Fund will be reserved to support development activities and events.
- **Rank and Salary** will be calculated daily based on the dividend generated from the total business volume, of the weaker leg (up to 150 levels).
- **DLMC** applies a 10% token burn on every **peer-to-peer** transaction.
