The Quality

At Manfrotto we not only make a range of innovative accessories to help photographers and film-makers take great shots, but we also take pride in offering world-class products manufactured to the highest quality, ensuring they can withstand the repeated daily use of the most demanding image-maker.

To keep our leading edge, we make significant investments into research and development to ensure that we can continue to launch new and innovative products to meet the needs of the ever-changing photo and video markets. Allied to our strict quality standards and attention to

detail, we are always looking at ways to improve the way our products are manufactured, too. We are consistently developing new ideas and technology which leads to investment in bespoke tooling and mouldings. With the vast majority of our fabric-based products made in our huge Leicestershire factory, we retain close control over quality.

High quality sprung steel is used inside all of our collapsible products. The steel is 'dressed' to ensure all the sharp edges and dirt are removed to ensure no damage is incurred during use and provide maximum longevity. To join the ends of the steel together we use a range of specially designed, heat treated clips that guarantee a permanently strong fix for the lifetime of the product. For added peace of mind we offer a lifetime warranty on the steel rim in all of our products.

The steel rim is incorporated into our products by inserting it into our specially designed rim tape. The rim tape is made from a hard wearing, woven elasticated construction designed to withstand the typical knocks and scrapes from daily use by a busy photographer. The thick woven construction prevents the steel from wearing through and potentially weakening the structure of the product.

We apply the same level of detail and quality to all of our textiles as well. Each fabric is manufactured to meet the needs of the product, specifying the construction of the weave and the type of raw materials used. Each fabric is then coated or processed depending on the technical performance required. The textiles are also tested to make sure they meet the correct performance levels over repeated use and in adverse conditions. We have developed a range of over 10 different technical fabrics used to manufacture our products, including our patent protected innovative TriGrip Difflector fabric.

Our diffuser fabrics are manufactured using only the finest whiteners to reduce any chance of unwanted colourcast. The fabric is also specially coated to ensure colour balance and a uniform spread of light as it is passed through

Our reflective surfaces are also specifically designed for our products and not general purpose textiles. We incorporate the correct level of stretch into the weave of all our fabrics to ensure the foil surface remains intact and does not crack under tension and lead to delamination. We also use the highest quality adhesive and lamination processes to ensure the foil remains bonded to the textile throughout the products lifetime and provides a uniform opaque surface to bounce the light.

the material, avoiding typical issues such as irregular distribution and hot spots. And finally to hold our products together we use a triple thread, twin needle, loop stitch which provides maximum strength and durability.

HaloCompact

Features and Benefits

- ▶ Ultra compact when folded down
- ▶ Lightweight construction
- ▶ Incorporates a ¼" thread in the handle
- ▶ Fits easily in a camera bag

Soft Silver

The HaloCompact boasts a patent pending design concept that makes the everyday reflector and diffuser panel even more portable than ever!

Unlike many traditional reflector/diffuser panels that incorporate a steel rim pop up design, the 82cm (32") HaloCompact is constructed using Manfrotto's new innovative RapidExoframe™ technology. The collapsible lightweight aluminium frame quickly slots together and the reflector or diffuser fabric simply clips onto the frame. The cleverly designed RapidExoframe™ construction allows the frame to breakdown into small multiple sections and along with the folded fabric packs into a carry case measuring only 6.5 x 27 x 6.5cm (2.5" x 10.5" x 2.5") weighing only 390g (reflector and case). The ultra-compact folded dimensions make the HaloCompact the perfect 'always with you' solution for Imagemakers on the move.

The HaloCompact also features an ergonomically designed handle so it can easily be held and accurately positioned with one hand. The handle also incorporates a very useful ¼" thread (plus a ¼" to ¼" adaptor), enabling it to be easily attached to various different support systems, to offer secure positioning further away from camera position.

HaloCompact Reflector Silver/White

Halo Compact Plus

Features and Benefits

- ▶ 46% larger surface area than the regular HaloCompact
- ▶ Compact pack size
- ▶ Ergonomic Grip
- ▶ Easy to set up
- ▶ Features a 1/4" thread mount (plus a 1/4" to 1/4" adaptor)

Specifications

Diffuser, 2 Stop

The HaloCompact Plus is the perfect 'always with you' compact tool ready to be quickly deployed when its essential to take control or manipulate the light.

With a 98cm (38") diameter and a surface area over 46% larger than the regular 82cm (32") HaloCompact this new addition is the largest yet, making it ideal for photo and video shoots when working with couples, small family groups or when shooting larger still life and product set ups .

The rigid frame of the HaloCompact Plus is constructed using Manfrotto's RapidExoFrame™ technology. The collapsible lightweight aluminium frame quickly slots together and the reflector or diffuser fabric cover simply clips onto the frame using a newly designed ergonomic clip, offering more flex during assembly to make set up even easier. The cleverly designed RapidExoFrame™ construction allows the frame to breakdown into small multiple sections and along with the folded cover, packs into a carry case measuring only 29.5cm x 10.5cm x 6cm (11.6" x 4.1" x 2.3") weighing only 450g (15.8oz).

The ultra-compact folded dimensions make the HaloCompact Plus the perfect solution for imagemakers on the move or with very limited carrying space. It now means a reflector or diffuser can always be carried in a camera bag without compromising. A handy carabiner style clip also allows the user to clip the HaloCompact Plus to the outside of their camera bag so that it is always within easy reach.

The HaloCompact Plus features an ergonomically designed handle so the reflector can easily be held and accurately positioned with one hand. The handle also incorporates a very useful 1/4" thread (plus a 1/4" to 1/4" adaptor), enabling the reflector to easily attach to various support systems such as arms and light stands.

The HaloCompact Plus is also available as a 2 stop diffuser. Kits include the RapidExoFrame™, 1x cover, carry case and 1/4" to 1/4" adaptor. Covers are also available separately.

HaloCompact Plus Cover 98cm (38") 2 Stop Diffuser. A 2 stop diffuser cover only for use with the HaloCompact 98cm (38") frame.

The triangular structure of the TriGrip makes it easy to hold in one hand with the camera in the other or for an assistant to hold one in each hand.

The securing strap allows the user to support the reflector without actually gripping the handle, reducing pressure on the wrist and fingers when held for prolonged periods.

The TriFlip covers make the TriGrip even more versatile. Simply slide the TriGrip into the cover to change the surface.

TriGrip

TriGrip designed by Gary Astill. A registered design.

Features and Benefits

- ▶ Hold the reflector with just one hand
- ▶ Hold 2 reflectors, one in each hand
- ▶ New moulded handle with strap
- ▶ Double sided
- ▶ Collapses to a third of its original size

TriGrip Bracket

Features and Benefits

- ▶ Ideal for photographers who work alone
- ▶ Compact foldaway design
- ▶ Compatible with battery operated flash guns
- ▶ Multi position ball joint connector

Specifications

TriGrip Bracket	Code
TriGrip Bracket*	LL LA2430

* Not recommended for use with the large TriGrip.

The TriGrip bracket is ideal for photographers who work alone and want to support the TriGrip reflector on one of our extending handles, a lighting stand, tripod or any other type of fixing bracket (a spigot connector may be required). Simply place the moulded TriGrip handle into the bracket and secure it in place with the strap. The ball joint connector enables you to then position the TriGrip exactly where you want leaving your hands free to operate the camera.

The bracket can be used to support the TriGrip when working with ambient light or in conjunction with battery operated flash using the flash gun attachment arm to bounce light off the reflectors surface or shoot through a diffusing panel.

Trifold Umbrella

Features and Benefits

- ▶ 10mm (0.4") shaft
- ▶ Lightweight and compact
- ▶ Ideal for use with flashguns

The ultimate compact shoot through umbrella for the photographer who needs to be mobile. Featuring a triple fold mechanism, the Trifold Umbrella folds down to an ultra-compact size, making it easy to slip into a camera bag. Great for using with compact flashguns.

TriGrip Difflector PATENTED

The TriGrip Difflector is the world's first dual purpose reflector panel which can be used as a diffuser (2.3 stops) and a bounce reflector. The unique fabric developed for this product allows light to pass through one side and bounce off the other side, making it a truly versatile product whatever the lighting conditions. The difflector is available with a Soft Silver reflective surface.

The TriGrip Difflector also features the unique TriGrip moulded handle for accurate positioning of the reflector with just one hand.

The Triflector is widely used in makeovers and fashion shots because the subject is given the Triflector's distinctive 'catch lights' to the eyes. The hinge mechanisms make all three panels individually adjustable to get light exactly where you need it. The panels each fold like our collapsible reflecting panels; the frame folds away and they all fit into a portable bag. Triflector MkII weighs only 1.2kg (2.6lb).

Single Net, 0.6 Stop	
Double Net, 1.3 Stop	

Manfrotto Rapid Flags are a comprehensive, ultra-compact, all-in-one lighting control flag and scrim kit, an ideal solution for the content creator on the move or with limited carrying space. With their compact folded form, multiple interchangeable textile cover options and rapid assembly, it now allows a highly versatile set of top-quality flags and scrims to accompany any portable lighting kit without compromising on performance or durability.

The Rapid Flag Kits are available in two sizes; 18" x 24" (45cm x 60cm) and 24" x 36" (60cm x 91cm) (Sold Separately). Each kit comprises of 2x Rapid Flag RapidExoframes™, 2x Grip Head Mounting Pins, 4x interchangeable textile covers including: 1x Single Scrim (0.6 stops), 1x Double Scrim (1.3 stops), 1x Artificial Silk (1.6 stops), 1x Solid Black Duvetyne Cover and 1x Compact Carry Case. All covers feature an open edge, perfect for gentle feathered lighting effects using the scrims and silk, with no harsh shadow created by the frame.

The collapsible, lightweight, yet strong aluminium frame quickly slots together thanks to an internal elastic cord onto-which the textile cover of choice simply slides, then snaps on securely via our specially developed perimeter clip, making for a super-fast set-up. Changing to an alternative textile couldn't be easier, just unclip and slide off the attached flag or scrim with ease and then attach another directly onto the frame, no time-consuming assembly required. With two frames and four textiles supplied in every kit, there are many combinations at hand for ultimate creativity.

Another key feature of the Rapid Flags is the versatile mounting point, that allows them to be positioned easily using an array of grip solutions. Each frame features a 5/8" (16mm) baby receiver and a 3/8" (10mm) detachable steel mounting pin making the Rapid Flags ideal for use on tilt heads, support arms and lighting stands as well as grip heads and extension arms as found on set-staple products such as C-Stands.

Rapid Flag 24" x 36" Kit LL LR1912

Skylite Rapid

For the location photographer who needs lighting control in the most demanding situations. The Skylite Rapid's collapsible but rigid aluminium frame delivers reliable performance even in windy conditions, while the Skylite Rapid covers simply clip in place to provide maximum versatility.

The Skylite Rapid frames, fabrics and accessories are all available separately, so you can mix and match as you choose.

For greater value choose our kit. The kit contains a Silver / White reflector, 1.25 stop diffuser, frame and rigid case.

Note: All Skylite frames are compatible with the original Skylite covers and Skylite Rapid covers.

Features and Benefits

- ▶ Aluminium frame
- ▶ Resistant to rust so ideal for outdoors
- ▶ There is an elastic cord running through the aluminium, so it's impossible to lose parts or leave anything behind
- ▶ Skylite Rapid covers clip easily into place for an impressively taut finish
- ▶ Kits include rigid case

Skylite Rapid DoPchoice 60 Degree SNAPGRID®

The Skylite Rapid DoPchoice 60 Degree SNAPGRID® is available in two sizes; 2×2m (6.5×6.5ft) and 3×3m (9.8×9.8ft) and compatible with the equivalent Skylite Rapid frame size.

The 60-degree fabric grid design provides the user precise control over the spread of light from their Skylite Rapid diffuser panel. Ideal for professional content creators wanting to create a controlled dramatic look with a strong directional light and offering minimal spill outside of the subject area, this essential light control tool is the go-to accessory when crafting light on set.

The grid has been designed and created in collaboration with DoPchoice a leading cinema lighting control accessory manufacturer and features their patented instant set-up SNAPFRAMES, which unlike other grids ensure an instant set up and sag-free construction. It attaches to the front of a frame in seconds, using convenient elastic corner straps and secure hook and loop fastenings preventing twisted sections and ensuring even distribution of the fabric grid. Built using strong, hardwearing technical fabric and precisely manufactured to the highest quality standards, these tools are built to be used by even the most demanding professionals and created to last.

In keeping with the ethos of the rest of the Skylite Rapid range, these grids are ultra-portable and when it's time to wrap up the shoot the grid simply folds down into the included compact carry case ready for the next shoot with a packed size of just 84×24cm (33×9.4in.).

It's ultra-lightweight too, just 2.2kg (4.8lbs) for the 2×2m and 3.6kg (7.93lbs) for the 3×3m making it an ideal accessory for busy professionals wanting to keep the weight of their kit down to a minimum.

Features and Benefits

- ▶ Aluminium frame
- ▶ Dedicated grid for the Skylite Rapid & Pro Scrim
- ▶ Rapid attachment and break-down
- ▶ DoPchoice's patented SNAPGRID® technology
- ▶ Folds down ultra-compact into the included carry case

- ▶ Unique focusing target
- ▶ For use with digital or film photography
- ▶ Collapses to a third of its original size

Specifications

EzyBalance	Code
30cm (12") 18%	LL LR1250
50cm (20") 18%	LL LR2050
75cm (30") 18%	LL LR3050

Getting accurate colours and exposure is made easier with the Manfrotto range of EzyBalance and XpoBalance products. Simply take a test shot of your subject holding the product each time you shoot in a new lighting situation. You can then use a custom white balance on your camera to take a reading off the Balance card for perfect white balance and exposure.

Alternatively, you can use the eyedropper tool in one of the many post-processing applications to set your correct white balance, then copy and paste to the rest of your batch of images.

With different grey options plus black and white patches, the XpoBalance allows you to set even more colour tint options for a range of creative results.

PATENTED EzyBalance

The EzyBalance 18% is a handy double sided 'pop up' grey/white card which simplifies the complex technical issues surrounding exposure and colour correction when working in different lighting conditions.

A unique focusing target enables the camera to focus on the card and take the necessary readings. A waterproof version is also available for scuba divers.

EzyBalance 18%

Specifications

XpoBalance	
38cm (15")	LL LR1558

The XpoBalance works in a similar way to the EzyBalance but has the added advantage of three different grey surfaces on one side and a black, white and 18% grey surface on the other side, collectively offering a range of white balance, exposure, colour correction and bracketing adjustment options.

XpoBalance LL LR1558

Ezybox Hotshoe

The Ezybox Hotshoe converts your battery operated flash gun from a harsh directional light into a much softer diffused light and is available in three sizes - 38cm x 38cm (15" x 15"), 54cm x 54cm (21" x 21") and 76cm x 76cm (30" x 30"). The Ezybox hotshoe folds flat for easy storage and can be assembled in a matter of minutes. The inner and outer diffusers, which when used together, produces a two stop light loss. The Ezybox Hotshoe Softbox is not designed for use with studio flash heads.

Removable inner + outer diffusers

Ezybox Micro

A simple collapsible softbox which fits direct to your flashgun. The Ezybox Micro slides directly on to your gun and is secured in place thanks to an innovative internal frame structure and elasticated collar which requires no additional fixing mechanism to be permanently attached to your flash. Fits neatly in your camera bag - a great 'always with you' accessory.

Features and Benefits

Ezybox Pro PATENT PENDING

Ezybox Pro is a range of unique fast fit softboxes which can be used with traditional studio flash, battery operated flashguns, the Elinchrom Ranger Quadra RX range and Profoto A1 and B2. The softboxes feature a unique softbox frame which fits directly to our Ezybox Pro Strip and Ezybox Pro Octa softboxes. Depending on your chosen light source, a choice of adapters can then be used to link the light source to the softbox frame. So, rather than buying different softboxes for every light you own the Ezybox Pro now offers a true 'one system fits all' solution.

Features and Benefits

- ▶ Multi light system bracket
- ▶ Compatible with all Ezybox Pro softboxes
- ▶ Also works with umbrellas when using flashguns
- ▶ Speedlight Bracket ships with Tilthead Spigot (LL LA2401) and two way trigger cable

Ezybox Pro Strip PATENT PENDING

The Ezybox Pro is the world's first softbox designed to fit battery flash, portable flash and studio flash from all the major flash manufacturers. Designed to meet the demands of modern day photographers who shoot with different types of flash, the Ezybox Pro enables them to carry one softbox, which is compatible with all their flash units and simply switch between different flash using simple connectors, without adjusting the softbox itself.

The Ezybox Pro Strip features a unique patent pending design, boasting an ultra-fast assembly time. The Ezybox Pro Strip is built around an innovative collapsible RapidExoframe, which remains attached at all times to the unique Ezybox frame, the interface for the many different compatible flash units. The softbox fabric also remains attached to the RapidExoframe and simply slides along the structure once assembled and clips into position at both ends. The 25 cm x 150 cm softbox (gridded area) offers a 6:1 strip proportion, and includes an inner and outer diffuser which when used together offers a 2 stop light loss. The softbox can be used in the vertical and horizontal position. For added control and creativity, the Ezybox Pro Strip also comes with a fabric grid, which simply fits inside the recessed outer edge.

Rapid assembly, multiple flash unit compatibility and all the benefits of strip box style lighting.

Specifications

Ezybox Pro - Octa

The Ezybox Pro is the world's first softbox designed to fit battery flash, portable flash and studio flash from all the major flash manufacturers. Designed to meet the demands of modern day photographers who shoot with different types of flash, the Ezybox Pro enables them to carry one softbox, which is compatible with all their flash units and simply switch between different flash using simple connectors, without adjusting the softbox itself.

The Ezybox Pro Octa softbox is our lightest Octa ever. Fast to assemble, the softbox simply pops open and is secured using four support rods and our unique Ezybox Pro softbox frame. The Ezybox Pro Octa is available in two sizes - medium and large (see below for measurements) and feature inner and outer diffusers which when used together, produces a 2 stop light loss and simply requires the correct connection kit depending on your chosen light source(s).

Save time and money with the Ezybox Pro Octa softbox.

EzyFrame Plain Colours

The 2m x 2.3m (6.5' x 7.5') EzyFrame Background is a large format collapsible background system offering a much larger shooting area than our 5' x 7' collapsible 'pop-up' style backgrounds. The extra width and height combined with the squarer format offers an increased surface area of over 46% allowing the content creator to pose multiple subjects and use large props.

In addition to our EzyFrame Vintage Backgrounds there are also five plain colour background surfaces to choose from, making the ideal background for a long list of photo or video applications; a white cover for a high key effect such as e-commerce photography, black for a dramatic low-key look such as portraiture and grey for a perfect mid key background surface such as an interview scene.

Additionally, there are two chroma key surfaces; chroma key green and a chroma key blue, ideal for video applications such as corporate presentations, live streaming and online content creation.

With a huge range of kits and covers to choose from The EzyFrame background system can cover any photo and film making assignment.

Features and Benefits

- ▶ Aluminium frame
- ▶ Highly portable and offers large background coverage
- ▶ EzyFrame covers clip easily onto the frame for an impressively taut finish
- ▶ Interchangeable with other EzyFrame covers

EzyFrame Vintage

The EzyFrame Vintage Background 2 × 2.3m (6'7" x 7'5") is a large format collapsible background concept offering a much larger shooting area for our highly successful vintage textured background surfaces, currently available as 1.5 × 2.1m (5' x 7') collapsible 'pop-up' style backgrounds. The extra width and height combined with the squarer format offers a substantially increased surface area allowing the photographer to pose multiple subjects and the use of props. Ideal for family portraits, more animated action poses, fashion and commercial shoots.

The EzyFrame Vintage Background features the tried and tested aluminium frame and clip on cover design used on our highly successful Skylite panels, Panoramic backgrounds and the newly launched StudioLink Chroma Key solutions. Assembled in a matter of minutes the EzyFrame Vintage background and cover packs down into a small rigid carry case measuring only 103cm x 19cm x 14cm making it extremely portable.

Features and Benefits

- ▶ Aluminium frame
- ▶ Highly portable and offers large background coverage
- ▶ EzyFrame covers clip easily onto the frame for an impressively taut finish

“ The HiLite is probably the best investment you will ever make as a photographer who uses flash. Why? There is not any other flash based product on the market that has so many uses to create so many styles and in any location. From a background to a window light, the HiLite allows you to shoot big light anywhere, producing a window light quality or a portable pure white background. ”

Mark Cleghorn, Photographer & Director of The Photographer Academy.

Getting creative with the HiLite by putting the model inside, there's so much you can do with a HiLite.

The HiLite is not only a background. It can be used as a huge full length softbox.

The HiLite is so simple to set up. Just attach a short rod to each corner and it's ready to shoot.

PATENTED HiLite Backgrounds

Features and Benefits

- ▶ Available in four sizes 1m x 1.4m (3'6" x 4'6"), 1.5m x 2.15m (5' x 7'), 1.8m x 2.15m (6' x 7') and 2.15m x 2.5m (7' x 8')
- ▶ Can be rotated and used on its short or long edge
- ▶ An optional 'wipe clean' vinyl train is also available that attaches to either edge for full length work
- ▶ Can be suspended on our LL LA1108 background support system
- ▶ Can even be used as a very large softbox
- ▶ Free standing

The HiLite backgrounds range allows the photographer to work in a way that was extremely difficult to achieve in the past, 'high key' photography on location and in restrictive spaces. By rear lighting the white background itself there is no longer a need to use a background light behind the subject. Furthermore, because the background is actually illuminated it means the subject can stand virtually right in front of it without casting a shadow. The HiLite backgrounds also works as a large rear softbox and illuminates the subject as well, meaning you can use just one other flash head to light the subject from the front. What's more, the whole thing is collapsible.

Specifications

Specifications

HiLite Accessories	Code
HiLite Window Voile	LL LB8969
HiLite Shaper	LL LB8968
HiLite Shapers and Masks	LL LB8967

Originally launched as an illuminated high key background the HiLite can also be used as an incredibly large full-length softbox, offering beautiful soft light. To offer ultimate control and creativity as a softbox we offer three accessories:

- HiLite Window Voile - turns the HiLite into a huge head to toe window light, allowing photographers to create the illusion that the subject is looking out through a large window or doorway.
- HiLite Shaper - a 86cm wide opaque black panel that masks the light allowing the photographer to create a single strip of light or split the light into two strips. Each offers a different lighting effect allowing the photographer to be as creative as they wish.
- HiLite Shapers and Masks - The shapers work as above however in this set there are three of them which allows the photographer maximum control. This set also includes three masks, which attaches to the top and the sides of the HiLite to ensure no light is spilled giving the photographer complete control.

All accessories are compatible with the 1.8m x 2.15m (6' x 7') HiLite only.

Panoramic Background

The Panoramic background is one of our widest, crease free textile surfaces. It features a collapsible three panel aluminium framework, creating a useful self-supporting wraparound structure. The fabric cover clips to the framework and is available in three solid colours – Black, Chroma Key Green and White and two textured surfaces – Granite and Limestone.

The Panoramic background is ideal for shooting larger groups on location, perfect for weddings, prom nights and event photography. The background folds down neatly into its own case and fits easily into a car.

Features and Benefits

- ▶ Up to 4m (13') wide and 2.3m (7'5") high
- ▶ Self-supporting
- ▶ Weighs only 9kg (19.8lb)
- ▶ Packs into a 100cm x 30cm x 35cm (39" x 12" x 13.5") bag

Aluminium Frame Support Kit LA8450

Panoramic Background Chroma Key

The Panoramic is a collapsible 4m (13') wide, 2.3m (7'5") high background that folds down neatly into its own carry case and fits easily into a car. Weighing only 9kg (19.8lb) it's ideal for busy image-makers on the move. The background is completely self-supporting and can be set up in minutes. The structure comprises three individual aluminium framed sections, connected together with a hinge clip to allow the background to be set up flat to lean against a wall or with the side frames folded in to create a wraparound effect. The Chroma Key cover just simply clips to the aluminium frame and creates a taught, seamless surface.

The background is ideal for live stream and post-production keying projects. Its impressive 4m width creates enough working area for multiple camera angles and subjects. Although the brushed fabric is incredibly non-reflective, the height and width combined is enough to place the subject/s at a good working distance from the background eliminating risk of any colour spill from the Chroma Key surface.

Features and Benefits

- ▶ Ideal for live stream and post-production keying
- ▶ Enough working area for multiple camera angles and subjects
- ▶ Self Supporting
- ▶ Quick to assemble
- ▶ Collapses down into a fabric bag
- ▶ Available in Chroma Key Green & Chroma Key Blue

Vinyl Background / Floor 2.75m x 6m Chroma Key Green	LL LB7781
Gaffer Tape 50mm x 50m Chroma Key Green	LL LB7966

The highly successful Panoramic Background continues to evolve with users constantly finding new ways to use this highly versatile product. A popular configuration for the Panoramic Chroma Key background is to join two or sometimes three panels together to make a much wider background to meet the needs of their chroma key film or live stream production.

To enable users to easily join multiple Panoramic Backgrounds together side by side and provide a continuation of the chroma key surface from one panel to the next, the new Panoramic Background Connection Kit includes two hinge brackets to join the aluminium frames plus a clip on chroma key joining strip to conceal the aluminium frames and the hinge brackets. The connection kit takes only a few minutes to assemble and packs down neatly to fit inside the existing Panoramic backgrounds rigid carry case.

StudioLink Swatches

Chroma Key Green

Chroma Key Blue

StudioLink

The StudioLink Background is a unique modular chroma key background system for use in the studio or out on location. Once assembled, multiple 3 × 3m (10' x 10') StudioLink screens can be joined together using the StudioLink Chroma Key Connection Kit (available separately) to form various configurations; side by side in a straight line or as a curvature up to the point of creating a full 360 degree enclosure. In addition, screens singularly or side-by-side can be rigged (using standard grip equipment) one above the other to create a second tier of screens.

Features and Benefits

- ▶ Reversible
- ▶ Chroma Key rim tape as standard
- ▶ Crease resistant fabric
- ▶ Fast to set up and dismantle
- ▶ For inside and outside use
- ▶ Collapses to a third of its original size

Vinyl Floor Strip 1.37m x 4m Chroma Key Green

The Vinyl Floor Strip 1.37m x 4m Chroma Key Green is a modular floor created to pair perfectly with Manfrotto's leading chroma key green background solutions such as the Panoramic, Chroma Key FX and Studio Link.

These compact rolls are easy to transport due to their manageable length and can be used individually, in a 2x2 formation, 1x3 formation or however large or small required.

The modular floor strips offer the professional content creator the ultimate flexibility; one day they may need only one panoramic background with a single floor strip, the next they may need two panoramic backgrounds joined together and a large floor area to work with in a wraparound studio set up.

Features and Benefits

- ▶ Pair perfectly with Manfrotto's Chroma Key Background range
- ▶ Modular strips can be used individually or joined together
- ▶ Hard-wearing, easy to clean and reusable
- ▶ Matte finish – to prevent unwanted reflections
- ▶ Crease resistant
- ▶ Strong aluminium inner-core tube on background/floor

Specifications

Chroma Key Vinyl Backgrounds and Floors	Code
Vinyl Floor 1.37x4m Chroma Key Green	LL LB7965
Vinyl Background 2.75mx6m Chroma Key Green	LL LB7781

Vinyl Background / Floor 2.75m x 6m Chroma Key Green

The Vinyl Background / Floor 2.75m x 6m Chroma Key Green can be used as either a full-length background using a support system thanks to the included aluminium core or can be used as a floor solution.

Created to pair perfectly with Manfrotto's leading chroma key green background solutions such as the Panoramic, Chroma Key FX and Studio Link by using the industry standard chroma key green reference.

Gaffer Tape 50mm x 50m Chroma Key Green

Features and Benefits

- ▶ Ideal for securing background solutions to the floor
- ▶ Ultra-Strong hold
- ▶ Leaves no sticky residue

Manfrotto's Gaffer Tape 50mm x 50m Chroma Key Green is ideal for securing background solutions to the floor and to cover joins for seamless keying when using Manfrotto's vinyl floor solutions.

It pairs perfectly with our existing Manfrotto chroma key range using the industry standard chroma key green reference as well as being premium quality tape that leaves no sticky residue when removed at the end of a shoot.

The Manfrotto Chroma Key Curtains are available in two sizes, 3m x 3.5m (10" x 12") and 3m x 7m (10" x 24"). Choose from Green or reversible Blue / Green versions. For most effective use, mount with Manfrotto's background support system (see page 65-66).

Superwhite Vinyl Background

Manfrotto's 'wipe clean' vinyl backgrounds can literally be used over and over again. Simply wipe away any dirt or footprints at the end of your shoot, then roll it back up ready for next time! It couldn't be easier. The vinyl can easily be suspended using our LL LB1128 background support system, while the 3.5m (White only) can be suspended using the 4m Solo Background Support (LL LB1142).

Note: Not compatible with the Manfrotto Expan Drive System

Features and Benefits

- ▶ Wipe clean
- ▶ Long lasting
- ▶ Ideal for 'high key' photography'
- ▶ 2.75m* x 6m (9' x 20') and 3.5m x 6m (11'5" x 20')

Magnetic Background Support PATENT PENDING

The Manfrotto Magnetic Background Support makes attaching and removing backgrounds simple. The steel band located within the rim of The Manfrotto backgrounds attaches directly to the two magnetic housings on the crossbar. The support can be raised to its desired position and the background simply lifted into position. The Magnetic Background Support will fit to most lighting stands with a 5/8" spigot. A kit is also available which includes a LL LS1159 lighting stand and carry case.

Magnetic connectors

Fits to most lighting stands

Fit to Out of Focus Background

Features and Benefits

- ▶ Magnetic connectors
- ▶ Universal fitting
- ▶ Available as a kit*
- ▶ Holds up to 5kg (11lb)

Solo Background Support

Features and Benefits	
▶ Single user operation	
▶ Unique pivoting cross bar	
▶ 3m, 4m and 6m widths, up to 2.8m high	

Specifications	
Solo Background Support	Code
Solo Background Support 3m (10')	LL LB1105
Solo Background Support 4m (13') Heavy Duty	LL LB1142
Solo Background Support Extension* 2m (6.5')	LL LB1143

*For 4m Background Support only

The Solo background support features a unique pivoting cross bar which makes raising the background on the supports a much easier and safer operation. Rather than step by step adjustments at each end of the support system the new pivoting connectors allow for much greater steps without making the whole structure unstable and unmanageable. The support is available as a 3m wide or 4m wide solution. The 4m version can also be extended to 6m to accommodate wider textile backgrounds and features our heavy duty stands which allow the use of our wide width vinyl (page 63). Each kit comes in a handy carry case which fits easily into a car.

Solo Support Brackets

Background Supports

There are a number of background supports systems to accommodate curtain, collapsible and roll up backgrounds.

Baby Poser

Features and Benefits

- ▶ Multi position
- ▶ Waterproof covering
- ▶ Supports babies of all ages

Specifications

Baby Poser	Code
Baby Poser	LL LA8017

The baby poser is a range of bead filled cushions designed to support a baby securely during the shoot. The cushions can be configured in different ways to pose babies of all ages comfortably on their back or front, kneeling or standing. When the cushions are positioned how you want them, fabric can be placed over the cushions to create the background colour of your choice. Each cushion is covered with a waterproof fabric in case of any little accidents!
