WELCOME

We are proud to present you our complete new tablecloth catalogue for 2016. We have worked hard to further distinguish our collection and are very satisfied with the result and we are eager to show you this collection.

We have discontinued some designs from the previous collection, but have added many new ones to give you the possibility to keep up-to-date with the market trends.

We feel confident that this collection will allow you to increase your sales in these products.

A strong base for our collection of tablecloths lies in our emphasis on quality. All of our products are manufactured in our factory in the Netherlands.

We have the Oekotex certificate for our complete range and all products are REACH compliant.

Some of our tablecloths are also available with a LFGB certificate, therefore do not hesitate to contact us for these kind of requests.

Most of our products are made with a non woven backing. We also offer fibranne, brushed fibranne or with a PTI backing.

Please let us know your requests and we will be happy to inform you about all the possibilities we have to make a 'custom made' tablecloth for you.

Sincerely,

The Management Team
Van Merksteijn Plastics B.V.
