Monad
Co-Founder
septiembre de 2017 - Present

Monad is a cutting-edge technology consultancy company that specializes in solving our clients most complex problems in the most efficient way possible.

Our high performance team is incredibly passionate about technology and learning, enabling us to deliver unparalleled user experience that solve real problems in real time, never compromising quality and ensuring scalability throughout product lifecycles.

As a team we are defined as being high performance, lean, innovative and customer centric.

To deliver these solutions we have in-depth knowledge in: Elixir, Python, Java Script, Go, Amazon Web Services, React, Django, Elastic Search, Cassandra, Riak TS, Postgres, among others.
