LABOR SAVING SERVICES

Our custom assembly services can save you valuable labor on the jobsite. Eliminate time-consuming tasks and let us prepare cable pulls, pre-fab light fixtures and pre-modified enclosures and back panels. All you'll need to do is a quick and easy installation. All customization is done in-house and can be delivered directly to your jobsite.

Speed Pull

Speed Pulls are up to **5 1/2 times faster** than manual wire and cable pulls. Our Speed Pull service bundles and binds together various types of wire and cable into one compact, flexible, multi-conductor cable. Your custom Speed Pull can include color-coded or numbered copper and electronic conductors. Get faster installation and easier identification with every run.

- Multiple-type, custom-bundled cables on a single spool
- Pre-made pulling heads
- Significant labor savings – one single, fast cable pull
- Simplified material management and material waste on the job
- Quick turnaround

Pre-fab Cord Drops

With Werner Electric customized cord drops you can order the exact length of SOOW cord you need and receive it fully ready to install. Our assembly team will cut, strip and terminate any devices you need including twist loc plugs, straight blade plugs, outlet boxes and more. We can also install cord grips or strain reliefs so your installation takes a fraction of the time you would need to do it yourself. Take advantage of Werner Electric custom cord drop services today and start saving time and money.

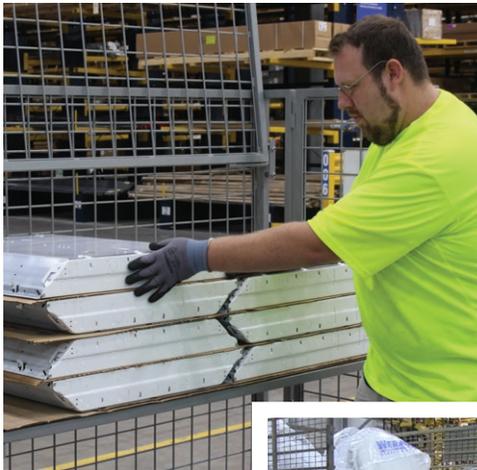

Metal Box Assemblies

Significant time and labor savings for contractors! Let us custom assemble your metal boxes with the mud rings, pigtails and accessories you need for quick installation.

- Metal box assemblies
- Uni-mount mud ring
- Direct or floor mount
- STAB-It box assemblies
- Mason box stubs
- Large capacity boxes for data
- Ceiling boxes with pigtails
- Conduit bends/data drops
- Pigtailed devices

Pre-fab Light Fixtures

Custom pre-fabricated connectors on light fixtures make jobsite installation a breeze. Pre-assembled fixture whips attach or snap directly into the light fixture housing and no tools are required for installation. This cost-effective solution eliminates lock and wire nuts. Easily insert the light fixture's conductors into the corresponding parts and you're finished.

Let us pre-fab and stage your entire building of fixtures, then expedite release to your jobsite when and where you need them!

MC Cable Cutting

Werner Electric's custom MC cable cutter and pigtailer simultaneously cuts and pigtails MC, AC, HCF and BX cables as fast as they can be measured. The MC cable cutter and pigtailer ensures accuracy and is the quickest, easiest way to cut and whip MC and other metal clad cables. Eliminate additional material costs and reduce product waste by letting us measure and cut precisely to only the lengths you need.

Pipe Threading

If you need Rigid or IMC conduit cut to custom lengths and threaded, we can do that for you! We have the capability to custom thread conduit from ½" to 4" in diameter and have it ready for your installation.

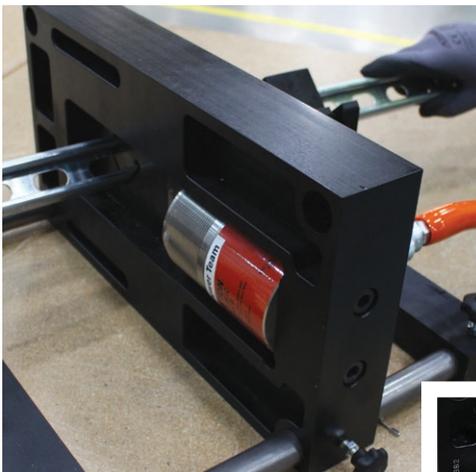

Conduit Bending

Pre-bent conduit from 1/2" to 4" diameter
EMT, IMC, and Rigid Conduit

Complete your jobs more quickly with custom conduit bending. Using product from our inventory, we can custom bend 1/2" to 4" diameter EMT, IMC, and Rigid conduit. We can deliver it direct to your jobsite in 1 week.

Strut Cutting

Our custom strut cutting can provide you with burr-free product which requires no post processing or finishing. Unistrut®, Powerstrut®, B-Line® and Superstrut® products can all be cut cleanly and efficiently with no product waste, no mess and no de-burring. Cutting dies are available for most commercial strut profiles including custom dies to meet special applications. Let us deliver strut directly to your jobsite and ready for installation.

VALUE ADDED SERVICES *CONTINUED*

Threaded Rod Cutting

Werner Electric can cut $\frac{1}{4}$ ", $\frac{3}{8}$ " and $\frac{1}{2}$ " mild steel and coarse threaded rod, or $\frac{1}{4}$ " and $\frac{3}{8}$ " stainless steel coarse threaded rod. Chip and burr-free threaded rod will allow you to easily thread fasteners without the need to clean the thread beforehand.

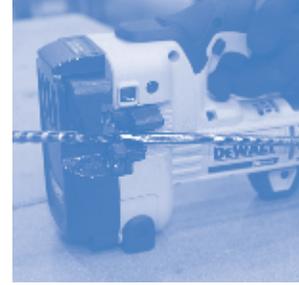

DIN Rail Cutting

We can easily cut DIN rail for your jobs with a burr-free finished cut. Whether you need solid or slotted industry standard DIN rail, we stock inventory and can cut the four most popular steel DIN rail sizes:

- 35 x 7.5mm
- 35 x 15mm
- 32 asymmetrical DIN rails
- 15mm DIN mini rail

Custom DIN rail cutting can reduce your jobsite labor by eliminating the time required to set up die changeovers.

Enclosure, Back Panel and Tub Modification

Don't waste your time making holes and cutouts manually! We can pre-modify Hoffman enclosures, back panels and tubs which are ready to populate. Our extensive local market inventory allows you to receive pre-modified enclosures, back panels and tubs in 1 to 2 weeks.

- DWG, DXF (no 3D files)
- Maximum enclosure size: 90" x 90"
- Minimum back panel size: 78" x 72"
- Drawings produced for customer approval

Modification of:

- Painted carbon steel
- Stainless steel
- Non-metallic enclosures
- Panelboard tubs

Custom Wire Striping

Using our vast wire inventory, we can now customize your wire runs with eleven different colors. We supply 72-hour turnaround on in-house custom striping.

Gauges:

- 18-10 awg
- THHN
- TFFN
- XHHW
- MTW
