

# WERNER ELECTRIC SUPPLY NEW CUSTOM SERVICES

## CUSTOM CONDUIT BENDING

Everyone loves to save money! Everyone loves efficiency! Let Werner Electric save you money and provide job site efficiency with our new Custom Conduit Bending Service. We can pre-bend up to 2" diameter EMT, IMC, and rigid conduit. Using conduit from our inventory, we can pre-bend conduit and deliver it to your job site in 2-3 days.

## CUSTOM EMBOSSED CABLE IDENTIFICATION PLATES

Werner Electric can make your cabling projects much easier with Custom Embossed, Cable Identification Plates! Werner Electric can provide made-to-order, high quality, custom embossed marker plates for easy cable identification. Let us save you time and money on your on-site wire and cable installations.

## CUSTOM WIRE STRIPING SERVICES

Werner Electric now offers Custom Wire Striping Services. Using our vast wire inventory, we can now customize your wire runs with eleven different colors and deliver right to your job site.

We'd love to have a discussion with you to see how Werner Electric Custom Services can save you labor, time, and money on the job!  
All customization is done in-house and can be delivered to your door!
