LIGHTING
Staging & Storage

Internal Staging

To make your lighting project easier to manage, we can store project materials in our warehouses for release to job sites on an as-needed basis.

Werner Electric takes care of:

- Replacement of damaged fixtures before they are needed on the job site
- Freight claims on damaged product
- Expediting to ensure product is available when needed
- Packing and grouping to meet your needs as you release product
- Delivery to your job site when you actually need the product
- Professionally receiving materials so that your electricians don't need to become material handlers

Additional Werner Electric Services

Additional Werner Electric Services are individually priced for every single fixture. You select and pay for only the services you need.

Services may include:

- Material storage
- Open box, verify contents, do not reseal
- Repackage components
- Kit fixture hardware
- Unbox
- Label
- Fixture mounting hardware
- Fixture whip
- Cart
- Ship together/separate
- Waste management
