Services

Custom Assembly & Prefab

Eliminate time-consuming tasks. All you'll need to do is a quick and easy installation. Our customization is done in-house and can be delivered directly to your jobsite.

Kitting

Reduce your fulfillment costs. Let us preassemble the electrical components you need into kitted units.

Load Center Assembly

Simplify installation. We can pre-populate the breakers in your load centers and remove cover knockouts. Homeruns can be pre-cut and pre-wired in load centers prior to reaching the jobsite.

Materials Management -VMI

Our VMI team will make sure that you are fully stocked and ready to go on the jobsite or at your facility! With a Vendor Managed Inventory (VMI) program you can reduce your inventory, overhead and manpower costs. Available are handy, secure job trailers, job boxes and caged carts.

Rental Tools & Equipment

Save money. Rent rather than purchase expensive equipment including cable pullers, crimping tools, fire rated foam caulk guns and power quality analysis tools.
