

PROCESS SOLUTIONS INSTRUMENTATION LINE CARD

Werner Electric Supply partners with the industry's top process control experts.

Our inventory includes pressure, temperature, and level transmitters, pressure and temperature gauges, and more! If you're looking for additional field instrumentation, contact your Werner Electric Sales Representative and we can help you design the best process solution for your application!

REOTemp

RTD's • Thermocouples • Temperature Transmitters • Pressure Transmitters

Bray

Butterfly Valves • Check Valves • Ball Valves • Actuators • Knife Gate Valves • Control Valves

Baumer

Level Measurement • Pressure Measurement • Temperature Measurement
Flow Measurement • Conductivity Measurement

Rice Lake

Load Cells and Wire • Weigh Modules • Mechanical Scales • Overhead Weigh Scales

See reverse for more Process Control Instrumentation. >

Absolute Process Instruments | Technical Support: 1-800-942-0315

Signal Conditioners • Temperature Transmitters • Transducers

Armstrong International | Technical Support: 1-877-486-4666

AIM 5700 Wireless Steam Trap Monitor

MTS Sensors | Technical Support: 1-800-633-7609

Level Transmitters

Badger Meter | Technical Support: 1-877-243-1010

Mag Flow Meters • Coriolis Meters • Vortex Flow Meters
Turbine Meters • Research Control Valves and Electric Actuators

Vaisala | Technical Support: 1-888-824-7252 (8:00 a.m. - 5:00 p.m. EST)

Temperature • Humidity • Dew Point • CO₂

Control Station

Control Station provides Loop Tuning and Plantwide Loop Monitoring Solutions.

Werner Electric Supply has access to additional lines of instrumentation via our partner network.
For questions, contact our Process Control Team at processsolutions@wernerelectric.com.
